

Name

Roll No.:

General Instructions:

1. Read the questions carefully.
2. Attempt all the questions.
3. No negative marking.
4. Answers to be marked in the OMR sheet. Darken the bubble completely. Partially darkened bubbles will not be considered.
5. Question number 1 to 100 carries 1 mark each

Read the given passage and answer the questions (1-3) that follow:

Stress is often viewed as a destructive force, draining energy and disturbing well-being. Students preparing for examinations or parents managing multiple responsibilities can testify to its exhausting effects. Yet psychologists and thinkers alike have long debated whether stress must always be harmful, or whether, under certain conditions, it can be transformed into something constructive.

Jeff Bezos, founder of Amazon, once remarked that he feels stressed only when he does nothing about a problem. According to him, the act of taking even the smallest step—identifying the source of stress, seeking allies, or beginning collaborative problem-solving—dissolves much of the tension. His statement reflects an important psychological principle: action interrupts rumination (the cycle of repetitive, negative thinking) and replaces helplessness with a sense of control.

On one side of the argument, chronic stress is undeniably detrimental. It raises blood pressure, interferes with sleep, and diminishes concentration. Left unchecked, it can transform ambition into anxiety. Students who dwell excessively on the fear of failure often underperform, not because of lack of ability, but because their energy is consumed by worry. Parents too, weighed down by financial strain or household conflicts, may allow their frustration to spill into family interactions.

On the other side, moderate stress—if managed well—can act as a catalyst for growth. The body's signals, such as a racing heartbeat or tightened muscles, need not be read as signs of defeat. Instead, they can be interpreted as prompts for adaptive strategies. Problem-focused coping, like planning a timetable or breaking a task into smaller steps, transforms stress into motivation. Social support further enhances this effect. Research shows that collaboration not only lightens the burden but also stimulates creativity. A "family inventors' meeting" to solve household chores or a group study session among students may turn a source of tension into an opportunity for shared achievement.

Thus, stress is neither wholly friend nor foe. Its impact depends on our interpretation and response. When ignored, it corrodes health and harmony. When confronted with awareness, action, and cooperation, it becomes a signal for resilience, innovation, and collective strength.

1. Which of the following is NOT supported by the passage?
 - a) Stress can sometimes encourage problem-solving when approached constructively.
 - b) Rumination reduces stress and sharpens focus.
 - c) Collaborative action can lighten the weight of stressful situations.
 - d) Chronic stress interferes with sleep and concentration.
2. If a student experiences stage fright before a debate, which strategy from the passage would be the most effective?
 - a) Ignoring the physical signals of stress
 - b) Breaking the preparation into small, manageable steps
 - c) Avoiding teamwork to reduce pressure
 - d) Dwelling on the fear of forgetting lines
3. Which of the following words BEST replaces the word **catalyst** in the sentence "**moderate stress...can act as a catalyst for growth**"?
 - a) Obstacle
 - b) Trigger
 - c) Distraction
 - d) Burden

Read the poem and answer the questions that follow (Q4-6) :

I remember
the first day,
how I looked down,
hoping you wouldn't see me,
and when I glanced up,

I saw your smile
 shining like a soft light
 from deep inside you.
 "I'm listening," you encourage us.
 "Come on!
 Join our conversation,
 let us hear your neon certainties,
 thorny doubts, tangled angers,"
 but for weeks I hid inside.
 I read and reread your notes
 praising
 my writing,
 and you whispered,
 "We need you
 and your stories
 and questions
 that like a fresh path
 will take us to new vistas."
 Slowly, your faith grew
 into my courage
 and for you—
 instead of handing you
 a note or apple or flowers—
 I raised my hand.
 I carry your smile
 and faith inside like I carry
 my dog's face,
 my sister's laugh,
 creamy melodies,
 the softness of sunrise,
 steady blessings of stars,
 autumn smell of gingerbread,
 the security of a sweater on a chilly day.

4. Which combination best identifies the **theme and tone** of the poem?
 A) Theme: Growth of confidence through support; Tone: Gentle yet inspiring
 B) Theme: Teacher–student relationship; Tone: Formal and detached
 C) Theme: Overcoming silence and self-doubt; Tone: Encouraging and hopeful
 D) Theme: Power of personal imagination; Tone: Reflective but distant
5. Which **TWO literary devices** are used in the poem's closing images: "**my dog's face, / my sister's laugh, / creamy melodies, / the softness of sunrise**"?
 A) Alliteration and Irony
 B) Imagery and Personification
 C) Symbolism and Metaphor
 D) Hyperbole and Onomatopoeia
6. The expression "**steady blessings of stars**" suggests—
 A) Enduring protection and quiet reassurance
 B) An occasional stroke of unexpected luck
 C) A distant hope that remains forever out of reach
 D) A powerful force shaping human destiny
7. If you remove both the prefix and suffix, what is left of the word reconsideration?
 A) consider
 B) consid
 C) reconsider
 D) consideration
8. Which of the following shows the correct singular–plural pairing?
 A) Oasis → Oasises
 B) Basis → Bases
 C) Crisis → Crisises
 D) Thesis → Thesises
9. Choose the sentence in which the verb **run** is used transitively.
 A) She runs every morning to stay fit.
 B) The river runs through the valley.
 C) They run a small café near the station.
 D) He runs quickly when it rains.
10. What does the phrasal verb **bust up** most nearly mean in the sentence: "**The couple's constant arguments finally caused them to bust up at the party.**"
 A) To angrily end their relationship altogether
 B) To get into a heated physical fight in public
 C) To storm out and go separate ways after clashing
 D) To stop speaking to each other for some time

11. In which of the following sentences is the **collocation** carry weight used correctly?
- The box was too heavy for him to carry weight.
 - Her opinion carries weight in the company's decisions.
 - The athlete trains daily to carry weight in the gym.
 - Please carry weight carefully up the stairs.
12. During the lecture, the professor shared an interesting **anecdote** about his college days. What would be the **antonym of the word anecdote** in this context?
- Story
 - Fact
 - Incident
 - Narrative
13. Which option best completes the sentence with the **correct word**? Despite being tired, she completed the project her colleagues had given up.
- although
 - because
 - whereas
 - until
14. Which of the following shows the correct sentence **transformation**?
- Our life is nothing but a struggle. → Is our life a struggle?
 - The rose is a very beautiful flower → How beautiful the rose flower is!
 - Please open the window. → Let the window be opened.
 - How a beautiful sight this is! → This is a very beautiful sight.
15. Which of the following sentences uses the idiom **blow up** in the face correctly?
- The chemistry experiment blew up in his face, leaving the lab filled with smoke.
 - Her rude remark blew up in his face, and he shouted back immediately.
 - Their carefully planned marketing campaign blew up in their faces when customers boycotted the product.
 - The balloon blew up in her face while she was trying to inflate it.
16. Which of the following sentences shows the correct **subject-verb agreement**?
- Neither the players nor the coach was ready for the match.
 - Each of the students have submitted their assignment on time.
 - The committee, after long hours of debate involving every single member's vote on dozens of amendments, have finally reached a decision.
 - Ten kilometers are a long distance to walk in this heat.
17. Which of the following clauses is incorrectly identified?
- I know what she wants. – Noun Clause
 - The house that Jack built is old. – Adjective Clause
 - She left because she was tired. – Noun Clause
 - I will wait until the rain stops. – Adverb Clause
18. Which of the options shows the correct sentence **transformation**?
- The chef cooked a delicious meal. → A delicious meal is cooked by the chef.
 - The teacher will announce the results tomorrow. → The results will be announced by the teacher tomorrow.
 - She writes letters to her friend every week. → Letters were written by her friend every week.
 - The company has launched a new product. → A new product has been launched by the company yesterday.
19. Choose the correct reported speech transformation: Meera said to Rohan, "**Did you complete the assignment I gave you yesterday?**"
- Meera asked Rohan if he had completed the assignment she had given him the previous day.
 - Meera told Rohan if he completed the assignment she gave him yesterday.
 - Meera asked Rohan whether he completed the assignment she had given him the day before.
 - Meera questioned Rohan had he completed the assignment she gave him the previous day.
20. The word **running** is used differently in the following sentences. Identify the correct classification of its usage in each case:
- Running is good for your health.
 - The running water soothed her.
 - She is running late for the meeting.
 - He has a running battle with his neighbour. _
- i) Gerund ii) Participle iii) Verb iv) Collocation
 - i) Noun ii) Verb iii) Participle iv) Gerund
 - i) Gerund ii) Verb iii) Collocation iv) Participle
 - i) Participle ii) Gerund iii) Verb iv) Conjunction

21. Anand covers 100m in 11.5 seconds while Arjun covers the same distance in 12.5 seconds. If they both start their race at same time then how much distance remains for Arjun to cover when Anand reaches finish line ?
 a) 1m b) 8m c) 4m d) 5m
22. $81^{0.2} \times 81^{0.3} = \text{-----}$
 a) 1 b) 2 c) 9 d) 81
23. A shop announced an offer that 1 pen will be given free on buying 19 pens. Find the discount percentage offered.
 a) 20% b) 15% c) 10% d) 5%
24. A vendor bought 3 chocolates for Re. 1. For how much per chocolate should he sell, to gain a profit of 50%?
 a) 50 paise b) 75 paise c) Re.1 d) Rs. 1.50
25. A student multiplied a number by $\frac{3}{5}$ instead of $\frac{5}{3}$. What is the percentage error ?
 a) 45% b) 86% c) 36% d) 64%
26. At what rate percent of simple interest will a sum of money double itself in 12 years?
 a) $33\frac{1}{4}\%$ b) $25\frac{1}{3}\%$ c) $17\frac{1}{2}\%$ d) $19\frac{1}{2}\%$
27. The sum of all interior angles of a regular polygon is 1260° . How many sides does the polygon have?
 a) 7 b) 8 c) 9 d) 10
28. A cone and a cylinder have the same base radius and height. The ratio of their volumes is:
 a) 1 : 2 b) 1 : 3 c) 2 : 3 d) 3 : 1
29. In a survey, 45% of students like Maths, 30% Science, and the rest English. If there are 200 students, how many like English?
 a) 50 b) 40 c) 30 d) 25
30. A die is rolled once. What is the probability of getting a number greater than 4?
 a) $\frac{1}{2}$ b) $\frac{1}{3}$ c) $\frac{2}{3}$ d) $\frac{1}{6}$
31. The average of 10 numbers is 25. If one number is added, the new average becomes 26. Find the number added.
 a) 35 b) 36 c) 45 d) 46
32. The area of a trapezium is 480 cm^2 . If its parallel sides are 20 cm and 28 cm, find the distance between them.
 a) 10 cm b) 12 cm c) 15 cm d) 20 cm
33. If 8 men can build a wall in 15 days, how long will 10 men take to build the same wall?
 a) 10 days b) 12 days c) 15 days d) 18 days
34. A car covers 120 km in 3 hours. How long will it take to cover 200 km at the same speed?
 a) 4 h b) 5 h c) 6 h d) 7 h
35. If the speed of a train is increased by 20%, the time taken to cover a distance will:
 a) increase by 20% b) decrease by 20%
 c) decrease by $16\frac{2}{3}\%$ d) remain same
36. Factorise: $x^2 + 7x + 10$
 a) $(x + 2)(x + 5)$ b) $(x + 10)(x + 1)$
 c) $(x - 2)(x - 5)$ d) $(x + 3)(x + 4)$
37. The cube of 0.4 is:
 a) 0.004 b) 0.04 c) 0.064 d) 0.16
38. Find the cube root of 0.000125
 a) 0.05 b) 0.1 c) 0.25 d) 0.5
39. Factorise: $a^3 + b^3$
 a) $(a + b)(a^2 - ab + b^2)$ b) $(a + b)(a^2 + ab + b^2)$
 c) $(a - b)(a^2 + ab + b^2)$ d) $(a - b)(a^2 - ab + b^2)$
40. If the cube of a number is 13824, then the number is:
 a) 12 b) 18 c) 24 d) 28
41. What is the primary importance of biodiversity in an ecosystem?
 a) To maintain ecological balance b) To increase pollution
 c) To reduce species population d) To alter climate

42. Which planet's atmosphere is mostly made up of carbon dioxide and its very hot?
a) Earth b) Mars c) Venus d) Mercury
43. What is the primary mode of transmission for diseases like malaria and dengue?
a) Airborne b) Waterborne c) Vector-borne d) Direct contact
44. Which disease is caused by a deficiency of insulin in the human body?
a) Hypertension b) Diabetes c) Asthma d) Arthritis
45. What type of energy is associated with motion?
a) Potential Energy b) Kinetic Energy c) Thermal Energy D) Chemical Energy
46. Which organelle is responsible for the synthesis of proteins in a cell?
a) Ribosome b) Lysosome c) Golgi apparatus d) Endoplasmic reticulum
47. Which metal is a best conductor of electricity among the four?
a) Copper b) Zinc c) Iron d) Lead
48. What is the primary difference between metals and nonmetals in terms of their electronic configuration?
a) Metals have more electrons b) Nonmetals have more electrons
c) Metals tend to lose electrons d) Nonmetals tend to loose electrons
49. What is the primary cause of biodiversity loss due to invasive species?
a) Habitat destruction b) Climate change
c) Competition with native species for resources d) Pollution
50. Which pollutant is a major contributor to global warming?
a) Carbon monoxide b) Carbon dioxide c) Sulfur dioxide d) Nitrogen oxide
51. Which international treaty aims to conserve biodiversity and ensure its sustainable use?
a) Paris Agreement b) Kyoto Protocol
c) Convention on Biological Diversity (CBD) d) Montreal Protocol
52. How does atmospheric pressure change with altitude?
a) Increases with altitude b) Decreases with altitude
c) Remains constant with altitude d) Varies randomly with altitude
53. What type of reaction involves the combination of two or more substances to form a new compound?
a) Synthesis reaction b) Decomposition reaction
c) Single displacement reaction d) Double displacement reaction
54. Which factor can increase the rate of a chemical reaction?
a) Decreasing temperature b) Increasing concentration of reactants
c) Decreasing surface area of reactants d) Removing catalyst
55. What is the phenomenon that occurs when light passes from one medium to another?
a) Reflection b) Refraction c) Diffraction d) Interference
56. Which type of mirror is used in a solar furnace?
a) Plane mirror b) Concave mirror c) Convex mirror d) Spherical mirror
57. Which disease is caused by protein deficiency?
a) Anemia b) Kwashiorkor c) Hypothyroidism d) Diabetes
58. Which substance is a good conductor of heat?
a) Wood b) Metal c) Plastic d) Glass
59. What is the primary function of respiration in living organisms?
a) To produce energy
b) To inhale and exhale gases
c) To produce oxygen
d) To remove waste products
60. Which organ is responsible for exchanging oxygen and carbon dioxide in the human body?
a) Heart b) Lungs c) Liver d) Kidneys
61. Which of the following scenarios best illustrates the principle of secularism?
a) A government holiday declared for one religion's festival
b) The state funding religious institutions
c) Equal treatment of all religions by the state
d) Government mandating religious education in schools

62. Match the following rulers with their policies:

Column A (Rulers).	Column B (Policies)
A. Lord Dalhousie.	1. Doctrine of Lapse
B. Lord Wellesley.	2. Permanent Settlement
C. Lord Cornwallis.	3. Subsidiary Alliance

Choose the correct match:

- a) A-2, B-3, C-1. b) A-1, B-3, C-2 c) A-3, B-1, C-2. d) A-1, B-2, C-3

63. I was born in 1885 in Bombay and became the voice of Indians against British rule. Who am I?

- a) Indian National Congress. b) East India Company
c) Indian National Army. d) Muslim League

64. Look at the picture below:

This picture shows an important act of civil disobedience against British rule. What is it called?

- a) Quit India Movement
b) Non-Cooperation Movement
c) Salt Satyagraha / Dandi March
d) Swadeshi Movement

65. "I'm invisible, infinite (well, mostly),

I don't pollute, I don't need trucks, and I can power your gadgets, homes, and even your TikTok dance lights. Humans love me, but only if they have fancy panels or mirrors to catch me.

What am I?"

- a) Coal. b) Solar Energy c) Petroleum. d) Natural Gas

66. Arrange the following events in the correct chronological order:

1. Gandhi launches the Salt Satyagraha
2. Formation of the Indian National Congress
3. Chauri Chaura Incident
4. Simon Commission arrives in India

Options:

- a) 2 → 4 → 3 → 1 b) 4 → 2 → 3 → 1 c) 2 → 3 → 4 → 1. d) 2 → 4 → 1 → 3

67. Why is the independence of the judiciary essential in a democracy?

- a) To support the ruling party
b) To ensure laws are implemented by the police
c) To protect citizens' rights and uphold the Constitution
d) To create new policies

68. Which farming method is most likely to be affected by unpredictable monsoon rainfall?

- a) Plantation agriculture. b) Intensive subsistence farming
c) Shifting cultivation. d) Commercial farming

69. Statement (S): Marginalised communities in India do not face any discrimination today.

Reason (R): Social and economic inequalities still exist, which limit their opportunities.

- a) Both S and R are true, and R is the correct explanation of S
b) Both S and R are true, but R is not the correct explanation of S
c) S is true, but R is false
d) S is false, but R is true

70. Which of the following statements about the judicial system in India is correct?

- a) The judiciary is controlled by the legislature and cannot challenge laws
b) The Supreme Court is the highest court in the country and can protect fundamental rights.
c) District courts are higher than the High Courts in the hierarchy.
d) The President can overrule the Supreme Court's decisions.

71. Some people turn raw stuff into shiny gadgets, cars, or clothes. They take what farmers grow and factories make and transform it into finished products. Without them, your phones, shoes, and bikes wouldn't exist! Which sector is being described?

- a) Primary Sector. b) Secondary Sector c) Tertiary Sector. d) Quaternary Sector

72. Which of the following statements about the Rajya Sabha are correct?

1. It is the upper house of Parliament.
2. It is a permanent house and one-third of its members retire every two years.
3. Members of the Rajya Sabha are directly elected by citizens.
4. The Lok Sabha can dissolve the Rajya Sabha at any time.

Options :

- a) 1 and 2. b) 2 and 3 c) 1 and 4. d) 3 and 4

73. Which of the following were outcomes of the Revolt of 1857?

1. Establishment of British rule in India
2. Formation of Indian National Congress
3. Widespread participation of peasants and soldiers
4. Immediate independence granted

Options:

- A) 1 and 2. B) 2 and 3 C) 1, 2, and 3. D) 3 and 4

74. Which of the following statements about tribals in India during British rule is false?

- a) Tribals resisted outsiders who tried to exploit their forests and land.
- b) Tribals willingly accepted the British rules and taxes without any resistance.
- c) The term "Dikus" was used by tribals for outsiders who tried to take their land.
- d) Many tribal uprisings were aimed at protecting their traditional way of life.

75. Which of the following are ways in which marginalized communities in India are supported?

1. Reservation in education and jobs
2. Legal protection against discrimination
3. Complete exemption from paying taxes
4. Denial of voting rights

Options:

- A) 1 and 2 B) 2 and 3 C) 3 and 4. D) 1 and 4

76. Which type of farming is practiced in areas with high rainfall and dense forests?

- a) Plantation farming.
- b) Shifting cultivation
- c) Mixed farming.
- d) Subsistence farming

77. Which industry is the largest in terms of production in India?

- a) Textile industry
- b) Iron and Steel industry
- c) Automobile industry
- d) Leather industry

78. Study the soil profile diagram below and answer the question :

Which layer contains mostly weathered rock material and very little organic matter?

- a) O horizon.
- b) A horizon
- c) B horizon.
- d) C horizon

79. The Carnatic wars were mainly fought between two European powers to gain control over Indian trade and territory. Which two powers were they?

- a) British and Portuguese.
- b) French and Dutch
- c) British and French.
- d) French and Portuguese

80. If a citizen's fundamental rights are violated, which right allows them to approach the court for justice.

- a) Right to Property.
- b) Right to Equality.
- c) Right to Freedom
- d) Right to Constitutional remedies.

81. '+' means '÷', '-' means 'x', '÷' means '-' and 'x' means '+' then $3 - 4 \times 12 + 6 \div 6$ is equal to
 a) 10 b) - 44 c) - 3 d) 8
82. Find the odd one out in the sequence of numbers: 2,5,10,17,26,37,50,64
 a) 64 b) 50 c) 37 d) 26
83. If A=2, M=26 and Z=52, then BET = _____ .
 a) 44 b) 54 c) 64 d) 72
84. Complete the sequence : 0, 5, 22, 57, 116, _____ .
 a) 205 b) 200 c) 161 d) 162
85. Mohini went to the movies nine days ago. She goes to the movies only on Thursday. What day of the week is today?
 a) Thursday b) Saturday c) Sunday d) Tuesday
86. Select a figure from amongst the Answer Figures which will continue the same series as established by the five Problem Figures.
 Problem Figures: Answer Figures:
- | | | | | | | | | | |
|---|---|-----|-------|-------|-------|-------|-----|-------|-------|
| + | + | - + | △ - + | △ - + | - △ + | △ - + | □ △ | △ - + | + - △ |
| - | - | ○ | ○ | ○ | ○ | ○ | ○ | ○ | ○ |
| △ | △ | △ | △ | △ | △ | △ | △ | △ | △ |
- (A) (B) (C) (D) (E) (1) (2) (3) (4) (5)
- a) (2) b) (3) c) (4) d) (5)
87. In a certain code language 'AWAKE' is written as 'ZVZJD'. How will 'FRIEND' be written in that code?
 a) UQHDE b) EQHDEM c) EQHDME d) EQHDMC
88. PALE : LEAP :: POSH : ?
 a) HSOP b) POHS c) SHOP d) HOPS
89. Choose the missing terms : b, e, d, f, ?, h, j, ?, l
 a) i, m b) m, i c) i, n d) j, m
90. Sumi ranked 9th from top and 38th from the bottom in a class. How many students are there in the class?
 a) 47 b) 48 c) 45 d) 46
91. Which of the following is NOT a Shakespearean play?
 a) Macbeth b) Hamlet c) Oliver Twist d) The Tempest
92. Snakes do not have —
 a) Tongue b) Eyes c) Eyelids d) Backbone
93. "Madhubani" and "Warli" are types of —
 a) Dance b) Painting c) Music d) Theatre
94. Which country has won the most Olympic gold medals in hockey?
 a) Australia b) India c) Netherlands d) Germany
95. The **2024 Nobel Prize in Physics** was awarded for research in —
 a) Quantum Dots b) Artificial Intelligence c) Climate Change d) Superconductivity
96. The author of **Panchatantra** was —
 a) Kalidasa b) Vishnu Sharma c) Tulsidas d) Valmiki
97. Which disease is caused by a virus?
 a) Tuberculosis b) Malaria c) Influenza d) Cholera
98. Which Indian leader gave the slogan "**Jai Jawan Jai Kisan**"?
 a) Jawaharlal Nehru b) Lal Bahadur Shastri
 c) Indira Gandhi d) Subhas Chandra Bose
99. Which Indian athlete is known as the "**Flying Sikh**"?
 a) Milkha Singh b) P.T. Usha c) Neeraj Chopra d) Abhinav Bindra
100. Who is known as the **king of football**?
 a) Diego Maradona b) Cristiano Ronaldo
 c) Pele' d) Lionel Messi
