

MALAPPURAM SAHODAYA APTITUDE TEST 2024-25 DISTRICT LEVEL

Class: 07

Date: 04/01/2025

Marks: 100

Name of the Student:

General Instructions:

1. Read the questions carefully.
2. Attempt all the questions.
3. No negative marking.
4. Answers to be marked in the OMR sheet. Darken the bubble completely. Partially darkened bubbles will not be considered.
5. Question number 1 to 100 carries 1 mark each.

Read the following passage and answer the questions (1 to 8):

When you go to sleep at night, you probably think that you are not doing much. Your body is in one place, your eyes are closed, and you don't talk to people. But your body is doing more than you think it is! Scientists have used special, sophisticated machines to study the way people sleep. They have found that your brain is actually very busy when you sleep. There are several stages of sleep in a sleep cycle. You go through the sleep cycle multiple times each night. Your brain's activity level is a little different in each stage. The final stage of the cycle is called rapid eye movement (REM) sleep. During REM, your eyes are moving even though you are asleep. That is how this stage got its name. Most of your dreams occur during REM sleep.

Do you ever remember your dreams? You may not remember what you dream, but you probably dream every night—almost everyone does. Why do you have dreams? Scientists disagree on exactly why you dream. Some say it is your brain's way of processing things. You learn a lot and have a lot of things happen to you, so while you sleep, your brain processes that information. Dreaming might be the way your brain makes sense of what happens to you. Some say that dreams are the way your brain solves problems. Suppose you are upset about something. Dreams may be a way for your brain to help you feel better. People may not agree on why you dream. But everyone agrees that dreaming is very important. You need to dream so that your brain is ready for the next day. dream every night—almost everyone does. Why do you have dreams? Scientists disagree on exactly why you dream. Some say it is your brain's way of processing things. You learn a lot and have a lot of things happen to you, so while you sleep, your brain processes that information. |----|---|
| 1. | What is your brain doing while you are sleeping?
a) It is not able to work. b) It is only a little busy
c) It is also asleep. d) It is very busy. |
| 2. | What is true about people during REM sleep?
a) They dream. b) They are awake.
c) They talk a lot. d) They feel sick |
| 3. | Which is a synonym for occur?
a) run b) sleep c) happen d) wake |
| 4. | Which word describes the tone of this text?
a) informative b) funny c) cautionary d) serious |

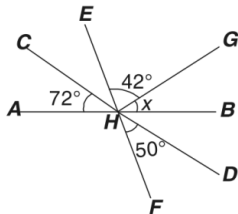

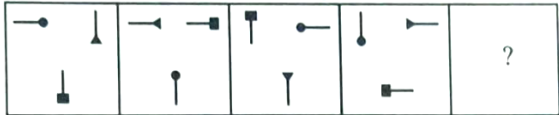

5.	What is this text mostly about? a) how to fall asleep b) dreams c) where to find a good bed d) how many hours of sleep you need
6.	Which statement about dreams is not true? a) Nobody knows exactly why people dream. b) Only a few people dream c) Dreaming is very important. d) There are several ideas about why people dream.
7.	Which is an antonym of remember? a) know b) speak c) recall d) forget
8.	What do we process in the same way we process information? a) sense b) problem c) products d) sleep
9.	For question 9-20, choose the correct option. Identify the correct synonym of the word 'Disdain' a) Courage b) Respite c) Despise d) Esteem
10.	Choose the word which is spelled correctly. a) Adversary b) Adverosy c) Advvarsary d) Adversery
11.	. Identify the adverb of the underlined word- 'I am never late.' a) Manner b) Frequency c) Time d) Place
12.	Mary: Many people have an _____ to tattoos . a) afflicted b) affection c) aversion d) adaptation
13.	Reena: "Would you mind carrying my bag for me. Meena: " _____ " a) Pardon me. b) Yes, certainly. c) No, not at all. d) I would rather not love to.
14.	A bad workman always blames his _____. a) tools b) hammer c) utinsels d) brushes
15.	The teacher asked us _____ on time. a) to b) to be c) for being d) None of these
16.	Angel could not decide _____ to go home _____ to stay to watch the match. a) not only....but also b) whether....or c) both...and d) None of these
17.	Don't worry, _____ book is with me. a) a b) an c) the d) no article
18.	Choose the odd one out from the given adjectives. a) Alert b) Watchful c) Vigilant d) Careless
19.	Choose the correct indirect speech for the sentence - He said, "Mr. Roger arrived on Sunday." a) He said that Mr. Roger had arrived on Sunday. b) He said that Mr. Roger has arrived on Sunday. c) He said that Mr. Roger arrived on Sunday. d) None of these.

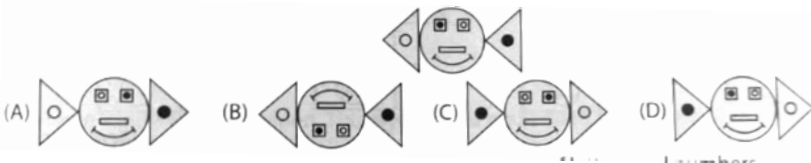

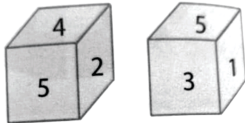

20.	Change into Passive voice. 'Somebody is watching us'. a) We have been watched. b) We are been watched. c) We are being watched. d) None of these.
21.	A car travels half of its journey at a speed of 40km/h and the other half at a speed of 60km/h. What is the average speed of the car for the entire journey? a. 48km/h b. 50km/h c. 52km/h d. 54km/h
22.	A metal cube and a metal sphere of the same material and mass are heated to the same temperature. When cooled, which will lose heat faster and why? A. The cube because it has more surface area. B. The sphere because it has less surface area. C. Both will lose heat at the same rate. D. It depends on the surrounding temperature.
23.	If a wire's insulation is damaged, causing the live and neutral wires to touch, what is the consequence? A. The circuit will stop working. B. The current flow will increase significantly, causing a short circuit. C. The current flow will stop completely. D. The wire will cool down, making it safe.
24.	In an exothermic reaction heat energy is _____. a) Absorbed b) Released c) Neutralized d) All of the following
25.	Which of the following chemicals are used to neutralize the basic nature of soil? a) Quicklime b) Organic matter c) Slaked lime d) Baking soda
26.	Sunidhi's teacher asked her to prepare dilute sulphuric acid from concentrated sulphuric acid. What should she do? a) Add water to the acid b) Add acid to the water c) Add a base to the concentrated acid d) Add an alkali to the concentrated acid
27.	How does the methyl orange indicator change its colour in the presence of acids? a) Yellow b) Green c) Red d) White
28.	Abiotic component among the following in the environment is ____ a) Bird b) Land c) Human d) None of the above
29.	Which among the following is not a natural ecosystem? a) Desert b) Fishing pond c) Forest d) River
30.	Who among the following interact with the environment and modify it according to their needs? a) Rivers b) Animals c) Mountains d) Human beings
31.	The domain of water is referred to as a) Lithosphere b) Ecosystem c) Biosphere d) Hydrosphere
32.	The India Meteorological department forecasts cyclones with the help of a) Rohini Satellite b) Aryabhata satellite c) INSAT satellite d) None of these
33.	The heated air that rises up gets cooled and sinks which cause the ____ a) Conduction currents b) Radiation c) Convection currents d) none of these

34.	Which of the following statement(s) is / (are) true about the heart? A) Left atrium receives oxygenated blood from different parts of the body, while right atrium receives deoxygenated blood from lungs B) Left ventricle pumps oxygenated blood to different body parts, while right ventricle pumps deoxygenated blood to lungs C) Left atrium transfers oxygenated blood to left ventricle which sends it to different body parts D) Right ventricle pumps deoxygenated blood to lungs through pulmonary vein a) C and D b) B and D c) A and D d) B and C
35.	Knee - jerk reaction is an example of _____. a) Reflex action b) Voluntary action c) Stimuli d) Response
36.	What hormone is produced by the adrenal glands of many animals, including humans, that helps to prepare the body for 'fight or flight' responses? a) Thyroxine b) Adrenaline c) Oestrogen d) Testosterone
37.	What is the term for the repeated reflection of sound waves, causing the sound to be heard multiple times after the original sound has stopped? a) Resonance b) Echo c) Refraction d) Diffraction
38.	What is the term for the process by which starches in grains, such as barley or wheat are broken down into fermentable sugars, typically occurring during the malting process in beer production? a) Gelatinization b) Saccharification c) Fermentation d) Hydrolysis
39.	What is the primary purpose of the “Sludge blanket” in a wastewater treatment plant's clarifier and how does it contribute to the overall treatment process? a) To remove suspended solids through sedimentation b) To aerate the wastewater and enhance biological treatment c) To filter out pathogens and contaminants d) To adjust the PH of the wastewater
40.	Which adaptation enables dessert - dwelling camels to conserve water by producing very dry dung and concentrated urine allowing them to survive for extended periods without drinking water? a) Specialized kidneys b) Efficient sweat glands c) Water Storing humps d) Highly efficient liver
41.	Who was the founder of the Vijayanagara empire? a) Krishnadevaraya b) Harihara and Bukka c) Devaraya II d) Ramaraya
42.	Which Sufi saint's Shrine is located in Ajmer? a) Nizamuddin Auliya c) Salim Chishti b) Moinuddin Chishti d) Qutubuddin Bakhtiyar khaki
43.	Who built the famous Mysore Palace? a) Tipu Sultan b) Krishnaraja Wodeyar IV c) Chamaraja Wodeyar X d) Haider Ali
44.	Which Rajput ruler is known for his defence against Akbar in the Battle of Haldighati? a) Rana Pratap b) Rana Sanga c) Jai Singh II d) Raja Mansingh
45.	What was the name of Shivaji's Council of Ministers? a) Panchayat b) Sabha c) Chauth d) Ashtapradhan

46.	Which invention is associated with James Watt? a) Spinning Jenny b) Steam engine c) Power Loom d) Cotton Gin
47.	Which layer of the Earth is made up of molten rocks? a) Crust b) Mantle c) Core d) Lithosphere
48.	What does GDP stand for in economics? a) Gross Domestic Product c) Global Development Plan b) Government Distribution Policy d) General Demand Price
49.	What is the primary function of the Legislature in a democracy? a) Enforcing law c) Interpreting law b) Making laws d) Maintaining Public Order
50.	Which battle marked the beginning of British political control in India? a) Battle of Panipat c) Battle of Haldighati b) Battle of Plassey d) Battle of Buxar
51.	_____ was a cyclone that formed in the Bay of Bengal in October 2024 a) Cathrina b) Cyclone Dana c) Emily d) Fani
52.	Which is the largest living structure on earth? a) The Great barrier reef b) The Amazon forest c) The Great Canyon d) The great wall of china
53.	Which scientist is credited with the structure of DNA? a) Watson and Crick b) Rosellin Franklin c) Maurice Wilkins d) Madam Curie
54.	Which book won the International booker prize of 2023? a) Hell Bent b) Spare c) Demon Copperhead d) Still Born
55.	Who won the golden glove award in the FIFA world cup 2022? a) Emiliano Martinez b) Embape c) Lionel Messi d) Ronaldo
56.	Who presides over the joint sittings of both houses of parliament in India? a) Chairman of Rajyasabha b) President c) Prime minister d) Speaker of Lokhsabha
57.	Name the latest Google's revolutionary Quantum Chip a) Willow b) Eagle c) Tangle d) Sycamore
58.	Which city will be hosting the 2028 Summer Olympics? a) Los Angeles b) Parisc) c)Tokyo d) Beijing
59.	What is the name of the largest organ in the human body? a) Brain b) Heart c) Lungs d) Skin
60.	What is the motto of the Olympic Games? a) Citius, Altius, Fortius b) Unity in Diversity c) Faster, Higher, Stronger d) Friendship, Respect, Excellence
61.	$\frac{15}{\square}$ is a fraction that lies between $\frac{1}{7}$ and $\frac{1}{8}$. What is the missing whole number in the box? a) 112 b) 56 c) 32 d) 65

62.	A rectangular plot has a concrete path running in the middle of the plot parallel to parallel to the breadth of the plot. The rest of the plot is used as a lawn, which has an area of 240sq. m. If the width of the path is 3m and the length of the plot is greater than its breadth by 2m, what is the area of the rectangular plot(in m)? a) 288 sq. m b) 488 sq. m c) 388 sq. m d) 588 sq.																								
63.	The scale of a map is given as 1:30000000. If two cities are 4 cm apart on the map, what is the actual distance between them? a) 600 km b) 1400 km c) 1300 km d) 1200 km																								
64.	What is the curved surface area of a cone of radius 3 cm & height 4 cm? a) $17\pi \text{ cm}^2$ b) $14\pi \text{ cm}^2$ c) $15\pi \text{ cm}^2$ d) $16\pi \text{ cm}^2$																								
65.	By what number should we multiply $(-8)^{(-1)}$ to obtain a product equal to $12^{(-1)}$? a) $\frac{2}{3}$ b) $-\frac{2}{3}$ c) $\frac{4}{3}$ d) $-\frac{4}{3}$																								
66.	The number of days left in November are double the number of days already passed.How many days are left in the month? a) 22 days b) 18 days c) 20 days d) 24 day																								
67.	Which pair of following numbers are respectively the additive & multiplicative identities? a) 2 & 0 b) 1 & -1 c) -1 & 0 d) 0 & 1																								
68.	The HCF and LCM of two numbers are 84 and 21, respectively. If the ratio of the two numbers is 1:4, then the larger of the two numbers is: a) 12 b) 48 c) 84 d) 108																								
69.	Reverse the digits of 1746 and we get 6471, the new number is larger than the original number by 4725. How many four-digit numbers satisfy such conditions? a) 16 b) 17 c) 20 d) None of the above																								
70.	The sides of a right-angled triangle are $(2a)$ cm, $(2a + 2)$ cm and $(4a - 2)$ cm long. What is the length of the shortest side of the triangle if its perimeter is 24 cm? a) 8 cm b) 10 cm c) 3 cm d) 6 cm																								
71.	If two numbers are in the ratio 10:13 and their difference is 33. What are the two numbers? a) 110, 123 b) 110, 143 c) 120, 143 d) 130, 123																								
72.	<table><caption>Temperature Data from Graph</caption><thead><tr><th>Day</th><th>Forecast (°C)</th><th>Actual (°C)</th></tr></thead><tbody><tr><td>Monday</td><td>15</td><td>18</td></tr><tr><td>Tuesday</td><td>20</td><td>20</td></tr><tr><td>Wednesday</td><td>25</td><td>30</td></tr><tr><td>Thursday</td><td>22</td><td>15</td></tr><tr><td>Friday</td><td>15</td><td>15</td></tr><tr><td>Saturday</td><td>30</td><td>25</td></tr><tr><td>Sunday</td><td>35</td><td>35</td></tr></tbody></table> Observe the above graph, on which days was the forecast temperature the same as the actual temperature ? a) Monday, Tuesday b) Tuesday, Friday, Sunday c) Monday, Tuesday, Wednesday d) Tuesday, Saturday, Sunday	Day	Forecast (°C)	Actual (°C)	Monday	15	18	Tuesday	20	20	Wednesday	25	30	Thursday	22	15	Friday	15	15	Saturday	30	25	Sunday	35	35
Day	Forecast (°C)	Actual (°C)																							
Monday	15	18																							
Tuesday	20	20																							
Wednesday	25	30																							
Thursday	22	15																							
Friday	15	15																							
Saturday	30	25																							
Sunday	35	35																							
73.	If two sides of an isosceles triangle are 3 cm and 8 cm, then the length of the third side is _____. a. 2 cm b. 8 cm c. 3 cm d. 1 cm																								

74.	Solve the following Roman numerals. $LIX + XXXVI + IX + XC - LX$ a) CXXXXVI b) CXXXLIV c) CXXVII d) CXXXIV									
75.	The values in data set are 95, 93, 91, 95, 100, 99 and 92. What value can be added to the set so that the mean, median and mode remain the same? a. 92 b. 95 c. 97 d. 96									
76.	Find the estimated difference between 16928 and 8952 by rounding off each number to the nearest hundreds. a) 7900 b) 8000 c) 7800 d) 7976									
77.	The length and breadth of a rectangular field are in the ratio 3 : 2, if the area of the field is 4056 sq.m. Find the cost of fencing the field at Rs 5 per m. a. Rs 1200 b. Rs 1400 c. Rs 1100 d. Rs 1300									
78.	A polygon has a prime number of sides. Its number of sides is equal to the sum of two least consecutive primes. The number of diagonals of the polygon is a) 4 b) 5 c) 7 d) 1									
79.	In a certain office, 13 of the workers are women, 12 of the women are married and 13 of the married women have children. If 34 of the men are married and 23 of the married men have children, what part of workers are without children? a. $\frac{5}{18}$ b. $\frac{7}{17}$ c. $\frac{10}{21}$ d. $\frac{11}{18}$									
80.	In the figure (not drawn to scale) AHB, CHD and EHF are straight lines. Find x a. 25° b. 16° c. 27° d. 28° 									
81.	Find the missing letter, if a certain rule is followed either row-wise or column-wise. a) Q b) P c) R d) N <table><tr><td>K</td><td>E</td><td>L</td></tr><tr><td>P</td><td>J</td><td>?</td></tr><tr><td>U</td><td>O</td><td>V</td></tr></table>	K	E	L	P	J	?	U	O	V
K	E	L								
P	J	?								
U	O	V								
82.	Select a figure from the options which will continue the same series as established by the Problem Figures? Problem Figures  a)  b)  c)  d) 									
83.	Choose the number pair/group which is different from others? a) 15 : 46 b) 12 : 37 c) 10 : 15 d) 8 : 33									
84.	Pointing to a photograph, Vipul said, "She is the daughter of my grandfather's only son." How is Vipul related to the girl in the photograph ? a) Brother b) Father c) Cousin d) Data inadequate									

85.	In a certain code language STUDENT is written as TUTDNES. How will SOURCES be written in that code language? a) SOURSEC b) SRUOCES c) SOURCES d) SUORECS
86.	Chinnu was born two years after his father's marriage. His mother is five years younger than his father but 20 years older than Chinnu who is 10 years old. At what age did the father get married? a) 23 years b) 24 years c) 25 years d) 28 years
87.	Which of the following is the correct mirror image if the mirror is placed vertically to the right  a) A b) B c) C d) D
	Direction (88-91) Study the following information and answer the questions given below. (i) there are six members A, B, C, D, E, and F in a room, of which there are two married couple (ii) A and C are married couple (iii) C is the sister of B, who is the father of E. (iv) E is the daughter of D and G is the son of A
88.	How many female members are there in the family? a) 2 b) 3 c) 1 d) 4
89.	How is G related to C? a) Nephew b) Brother c) Son d) Cousin
90.	Who is the mother of E? a) D b) c c) b d) None of these
91.	How is B related to G? a) Brother b) cousin c) Nephew d) Maternal Uncle
92.	A watch which gains 5 seconds in 3 minutes was set right at 7 a.m. in the afternoon of the same day, when the watch indicated quarter past 4 o'clock, the true time is: a) 1 p.m. b) 2 p.m. c) 3 p.m. d) 4 p.m.
93.	How many such digits are there in the number 7346285 which are as far away from the beginning of the number, as they will be when arranged in ascending order within the number? a) One b) Two c) Three d) Four
94.	Two Positions of a dice are shown below. Which number will be on the face opposite to the face having number 5?  a) 1 b) 6 c) 4 d) 2
95.	Find out the wrong term in the series 2, 5, 10, 50, 500, 5000 a) 10 b) 20 c) 500 d) 5000

96. Find odd one out in the picture given below:

A	F	Z	E
---	---	---	---

- a) F b) Z c) E d) A

97. Three words in capital letters are given in the question, which have something in common among themselves. Out of the four given alternatives, choose the most appropriate description about these three words. CHAIN : LINK : BRIDGE

- a) They join two parts.
- b) They are related with ornaments.
- c) The terms are related with prison.
- d) They all have hooks

98. In the following question, a sequence of groups of letters and numbers is given with one term missing as shown by (?). Choose the missing term out of the given alternatives. 2Z5, 7Y7, 14X9, 23W11, 34V13, ?

- a)45U15 b)27U24 c)47U15 d)47V14

99. | Man : Biography :: Nation : ?

- a) Nationalism b) Leader c) Story d) History

100. If $A + B$ means A is the brother of B; $A - B$ means A is the sister of B and $A \times B$ means A is the father of B. Which of the following means that C is the son of M?

- a) $F - C + N \times M$
b) $M - N \times C + F$
c) $M \times N - C + F$
d) $N + M - F \times C$
