

MALAPPURAM SAHODAYA APTITUDE TEST 2024-25 DISTRICT LEVEL

Class: 08

Date: 04/01/2025

Marks: 100

Name of the Student:

General Instructions:

1. Read the questions carefully.
2. Attempt all the questions.
3. No negative marking.
4. Answers to be marked in the OMR sheet. Darken the bubble completely. Partially darkened bubbles will not be considered.
5. Question number 1 to 100 carries 1 mark each.

Read the following passage and answer the questions (1 to 8):

Man does not live by food alone. Water is vital to human health and fitness. Although it is not a nutrient carbohydrates, fats, proteins, vitamins and minerals. It, in fact, is a key nutrient in as much as no life is possible without it. Whereas we can live for weeks without food, we cannot live without water longer than a couple of days. Water approximates 60 percent of the body weight of human adults. The total amount of water in a man weighing 70 kilograms is approximately a little over 40 litres. It is an excellent solvent – more substances are soluble in water than in any other liquid known so far. This makes it an ideal constituent of the body fluids which sustain life supporting chemical reactions. It dissolves varied products of digestion and transports them to the rest of the body. Likewise, it dissolves diverse metabolic wastes and helps drain them out of the body. Besides, it performs a variety of functions, some well known and well understood while others not so well appreciated yet vital. The no less important role of water is to distribute/dissipate the body heat efficiently, thereby regulating the body's temperature. Water accomplishes this role ideally because it has thermal conductivity ensuring rapid heat from one part to the other. Above all, water has a high-specific heat, implying that it takes a lot of heat to raise the temperature of water and likewise much heat must be lost to lower its temperature. Drinking a lot of water is an inexpensive way to stay healthy. Even excess water is harmless. Water therapy drinking a liter or so the first thing in the morning is kidney-friendly. The water regulation in the body is affected by hypothalamus in two ways i.e., (i) by creating the sensation of thirst which makes us drink water and (ii) by controlling the excretion of water and urine. If water regulation fails, a medical emergency ensues.

1. Water is vital to human health and fitness because:
a) man does not live by food alone
b) it is an excellent solvent
c) we cannot survive for more than a couple of days without it
d) it controls thirst and excretion of water as urine
2. Water is an excellent solvent because
a) It regulates excretion of urine
b) It dissolves metabolic wastes
c) It drains wastes out of body
d) More substances are soluble in it than in any other liquid.
3. The high thermal conductivity of water helps to
a) Dissolve food
b) Dissolve metabolic wastes
c) Regulate body temperature
d) Sustain life supporting chemical reactions

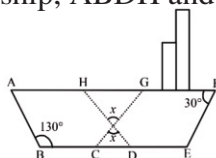

4.	Which of the following statements is not true? a) Water regulates body temperature b) Excess water is not harmless c) Excess water is not harmful d) Water transports nutrients to the body
5.	What does the author mean when he uses the word 'regulation' in the last para? a) Official rule b) Control c) Device for fair use d) Worn or used as per rules
6.	Drinking a litre of water in the morning is called a) Hypothalamus b) water regulation c) kidney therapy d) water therapy
7.	The word 'ideal' means a) lazy b) most suitable c) valuable d) good
8.	The opposite of 'numbness' is a) sensation b) dissipate c) dissolve d) excess
9.	For Questions 9 to 20 choose the correct option. If someone says, 'It's yours for the taking.' He/ She is _____ a) offering something b) asking for something c) enquiring about something d) refusing to lend something
10.	If he had studied harder, he _____ a good college. a) might have get into b) should have got into c) will have got into d) would have got into
11.	Find the word which means 'a loud confused noise?' a) Tumult b) Chaos c) Blare d) Shrill
12.	A lover of mankind is called _____ a) Misogynist b) Egoist c) Philanthropist d) Altruist
13.	Although, I have _____ knowledge of music, I enjoy listening to it. a) a few b) plenty of c) a little d) little
14.	If wishes were horses, _____. a) horses would ride b) horses would fly c) beggars would ride d) beggars would fly
15.	What's the correct spelling of the word that means- 'frequent'. a)Incessant b) Incesant c) Incessent d) Incesent
16.	Choose the part of the sentence that has an error. The best candidate should be appointed to the post, let us decide this with merit. a) The best candidate b) should be appointed to the post c) let us decide d) this with merit.
17.	Identify the kind of adverb of the underlined word in the sentence. I'm <u>extremely</u> grateful to you. a) Manner b) Degree c) Frequency d) Reason
18.	Identify the kind of pronoun of the underlined word in the sentence. It's partly finished. There is <u>something</u> left. a) Indefinite b) Possessive c) Distributive d) Relative

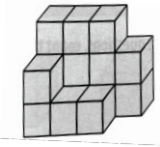

19.	Choose the correct indirect speech for the given sentence - Joel asked his friend, "How did you do this?" a) Joel asked his friend how did he do that.. b) Joel asked his friend how he had done that? c) Joel asked his friend how he had done that. d) Joel asked his friend how had he done that.
20.	Change into Passive voice.- The loud noise frightened the baby. a) The baby is frightened by the loud noise. b) The baby was frightened by the loud noise. c) The baby been frightened by the loud noise. d) None of these.
21.	Which of the following words would complete the given sequence? a) Broadcasting c) Manuring b) Transplanting d) Drilling <pre> graph LR A[Ploughing] --> B[Levelling] B --> C[X] C --> D[Sowing seeds] D --> E[Irrigation] </pre>
22.	Which of the following effects is caused by frictional force? a) Change in the shape of an object b) Change in the direction of the motion of an object c) Slowing down of a moving object d) Acceleration in a moving body
23.	Acid rain is formed due to contribution from the following pair of gases: a) Methane and ozone b) Sulphur dioxide and nitrogen oxides c) Methane and sulphur dioxide d) Carbon dioxide and water vapour
24.	Identify the given microorganism and select the incorrect statement regarding it. a) It is a saprophyte commonly called as black bread mould. b) It reproduces by means of spores. c) It results in the spoilage of food materials. d) It is a parasitic fungus that causes various diseases in plant
25.	There are some organisms, which take in the entire food molecule inside their body by the process of ingestion, and then digest the food molecule. This process of nutrition is called ____. a) Saprophytic b) Parasitic c) Holozoic d) Autotrophic
26.	Which of the following is absent in an animal cell? a) Cytoplasm b) Nucleus c) Cell membrane d) Cell wall
27.	James combs his hair and brings the comb near some tiny pieces of paper. He finds the comb is attracting paper pieces. The force of attraction by the comb on the tiny piece of paper is due to which one of the following forces? a) Magnetic force b) Gravitational force c) Nuclear force d) Electrostatic force
28.	Sounds having frequency more than 20Hz are called a) Infrared b) Ultrasound c) Infrasonic d) Supersonic
29.	"Is malleable and ductile" .This best describes a a) Metal b) Non-metal c) Compound d) Solution

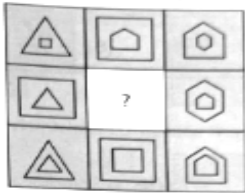

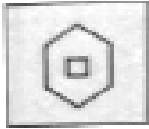

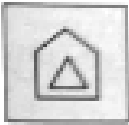

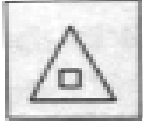

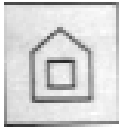

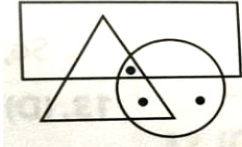

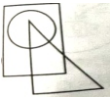

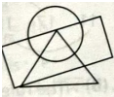

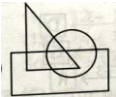

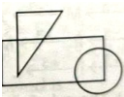

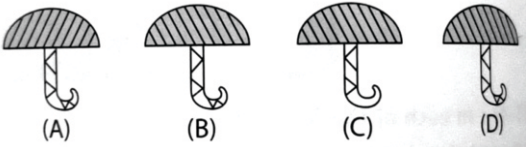

30.	The major component of LPG is a) Hydrogen b) Propane c) Methane d) Butane																				
31.	Disease causing microorganisms are called a) Pathogens b) Vectors c) Agents d) Carrier																				
32.	What is the outcome of the release of carbon particles and smoke from factories? a) Increases the rate of respiration in plants. b) Decreases the rate of photo- synthesis in plants. c) Increases the absorption of carbon dioxide by plants. d) Decreases the rate of transpiration in plants																				
33.	What are high speed winds accompanied with? a) Increased pressure b) Reduced pressure c) Water vapour d) Static electricity																				
34.	A planet which is called born sister of Earth is a) Mercury b) Venus c) Mars d) Jupiter																				
35.	The planets have their own natural satellites which revolve around the planet in its axis, as the planet revolves around the Sun. The different planets have different numbers of natural satellites. The number of natural satellites Jupiter has: a) 1 b) 11 c) 17 d) 28																				
36.	Identify an incorrect statement. a) CNG and LPG are clean fuels. b) Petroleum is refined in a petroleum refinery. c) Petroleum products are called petrochemicals. d) Coal does not cause any pollution when burnt.																				
37.	Metal P reacts with water and dilute hydrochloric acid. Metal Q does not react with water but reacts with dilute hydrochloric acid. Metal R does not react with water and dilute hydrochloric acid. Which one shows their reactivity in a decreasing order ? a) P, Q, R b) P, R, Q c) R, Q, P d) Q, R, P																				
38.	Which of the given statements is true ? a) Carbon dioxide is used to extinguish fires involving oil and petrol. b) Water is not suitable for fires involving electrical equipment. c) Water is the best extinguisher for fires involving inflammable materials. d) Both (a) and (b).																				
39.	A copper coin is kept immersed in a solution of silver nitrate for some time. What will happen to the coin and the colour of the solution ? a) Silver metal will be deposited on the coin and solution will turn blue b) Solution will remain colourless and coin will turn blue c) Both solution and the coin will turn blue d) Both solution and the coin will become colourless																				
40.	Match the entries in Column I with those in Column II <table><tr><td></td><td>Column - I</td><td></td><td>Column - II</td></tr><tr><td>(A)</td><td>Silk</td><td>(1)</td><td>Rope</td></tr><tr><td>(B)</td><td>Nylon</td><td>(2)</td><td>Sweater</td></tr><tr><td>(C)</td><td>Acrylic</td><td>(3)</td><td>Bottle</td></tr><tr><td>(D)</td><td>Plastic</td><td>(4)</td><td>Saree</td></tr></table> a) A-1, B-3, C-4, D-2 b) A-2, B-4, C-3, D-1 c) A-3, B-1, C-4, D-2 d) A-4, B-1, C-2, D-3		Column - I		Column - II	(A)	Silk	(1)	Rope	(B)	Nylon	(2)	Sweater	(C)	Acrylic	(3)	Bottle	(D)	Plastic	(4)	Saree
	Column - I		Column - II																		
(A)	Silk	(1)	Rope																		
(B)	Nylon	(2)	Sweater																		
(C)	Acrylic	(3)	Bottle																		
(D)	Plastic	(4)	Saree																		

41.	The paleolithic age is also known as..... a) New Stone Age b) Old Stone Age c) Bronze Age d) Iron Age
42.	The code of Hammurabi is associated with which ancient civilization? a) Mesopotamian b) Egyptian c) Chinese d) Indian
43.	The British East India company established its first factory in India at..... a) Surat b) Bombay c) Calcutta d) Madras
44.	Name the viceroy who announced the 'Partition of Bengal'. a) Lord Canning b) Lord Dalhousie c) Lord Wellesley d) Lord Curzon
45.	Babur was the founder of which Empire in India..... a) Mughal Empire b) Gupta Empire c) Mauryan Empire d) Delhi Sultanate
46.	The Constitution of India came into effect on..... a) 15 August 1947 b) 26 January 1950 c) 26 November 1949 d) 2 October 1947
47.	Which ancient Indian ruler is known for spreading Buddhism across Asia? a) Chandra Gupta Maurya b) Samudragupta c) Ashoka d) Kanishka
48.	India is the largest producer of which natural resource? a) Mica b) Iron ore c) Gold d) Copper
49.	Who appoints the judges of the Supreme Court? a) Prime Minister of India c) Chief Justice of India b) Law Minister d) President of India
50.	The Sunderbans Delta is known for which type of vegetation? a) Tropical Rain Forest b) Mangroves c) Desert Vegetation d) Alpine Forest
51.	One of the greatest tennis players of all time, he was at No. 1 position for 302 weeks. He is the only male player to win five consecutive US Open titles. Identify him. a) Rafael Nadal b) Novak Djokovic c) Roger Federer d) Andy Murray
52.	Who was known as Iron man of India? a) Govind Ballabh Pant b) Jawaharlal Nehru c) Subhash Chandra Bose d) Sardar Vallabhbhai Patel
53.	The process by which a solid changes to gas without becoming a liquid is called a) Vapourisation b) Sublimation c) Boiling d) Absorption
54.	With which sports is the Davis cup associated? a) Football b) Cricket c) Hockey d) Tennis
55.	Who advocated "Liquor is poison, make it not, sell it not, drink it not"?- a) Thycaud ayya b) Sree Narayana Guru c) Ayya Vaikundhar d) Chattampi Swamikal
56.	Who among the following came to India first? a) Persians b) Arabs c) Aryans d) Iranians

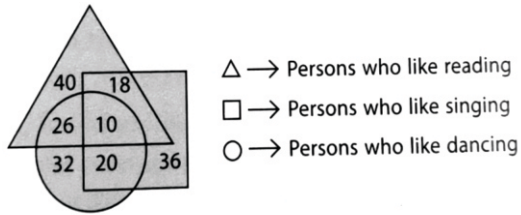

57.	The first heart transplant operation was conducted by Dr. Christian Bernard in the year - a) 1958 b) 1922 c) 1967 d) 1968
58.	Galileo was an Italian scientist who a) developed the telescope b) discovered four satellites of Jupiter c) discovered that the movement of pendulum produces a regular time measurement d) All of the above
59.	The Ozone layer resists a) X-rays and gamma rays b) Visible light c) Infrared radiation d) Ultraviolet radiation
60.	Headquarters of UNO is located at a) Paris b) Geneva c) Haque (Netherlands) d) New York, USA
61.	The price of petrol increased by 12% last year. Now, the price is reduced by 12%. Find the net increase or decrease in the price of petrol. a. Rs 1.49 b. Rs 1.44 c. Rs 1.50 d. Rs 1.39
62.	If the height of a cylinder is halved, its volume becomes how many times? a) $\frac{1}{2}$ b) $\frac{1}{3}$ c) 2 d) 3
63.	The area of a rhombus is 240 cm^2 . If one of its diagonals is 16 cm, what is the length of its other diagonal? a) 32cm b) 30 cm c) 45 cm d) 48 cm
64.	What should be subtracted from $2x^2 - 5y + 7z$ to get $x - y + z^2$ a) $x^2 - 4y^2 + 6z^2$ b) $x^2 - 3y^2 + 6z^2$ c) $3x^2 - 2y^2 + 2z^2$ d) $x^2 - y^2 + z^2$
65.	Zero (0) is: a) the identity for addition of rational numbers. b) the identity for subtraction of rational numbers. c) the identity for multiplication of rational numbers. d) the identity for division of rational numbers.
66.	Every rational number is a: a) Rational Number b) an integer c) a real number d) a whole number
67.	If 15 workers can build a wall in 48 hours, how many workers will be required to do the same work in 30 hours? a) 15 b) 14 c) 24 d) 30
68.	What is the area of a trapezium whose two parallel sides are 10 cm & 12 cm & height 4cm? a) 42 cm^2 b) 44 cm^2 c) 46 cm^2 d) 48 cm^2
69.	What is the perimeter of the parallelogram whose two adjacent sides are 12cm & 7cm? a) 28cm b) 38cm c) 84cm d) 168cm
70.	In the following figure of a ship, ABDH and CEFG are two parallelograms. Find the value of x. a. 90° b. 80° c. 100° d. 120°

71.	 In the above pie chart, if the monthly savings of the family is Rs.3000, what is the monthly expenditure on clothes? a) Rs. 2000 b) Rs. 3000 c) Rs.1000 d) Rs.4000
72.	If a number has '1' or '9' in the unit's place, then its square root ends in which of the following numbers. a) 1 b) 4 c) 5 d) 6
73.	Find the rate of sales tax if an article marked at Rs.5000 is sold for Rs.5200? a) 3% b) 4% c) 5% d) 7%
74.	What should be added to $-\frac{3}{5}$ to get $-\frac{7}{5}$ a) $\frac{4}{5}$ b) 1 c) $-\frac{4}{5}$ d) -1
75.	The list price of an article is Rs.220. If it is sold at a discount of 20%, what is its selling price? a) 100 b) 44 c) 176 d) 200
76.	If 5 people can do a piece of work in 20 days, how many people can do the same work in 2 days? a) 8 b) 50 c) 100 d) 200
77.	The shifting of a number from one side of an equation to other is called: a) Transposition b) Distributivity c) Commutativity d) Associativity
78.	Which pair of following numbers are respectively the additive & multiplicative identities? a) 2 & 0 b) 1 & -1 c) -1 & 0 d) 0 & 1
79.	Which of the following numbers must be multiplied to 392 to get a perfect cube ? a) 2 b) 3 c) 4 d) 7
80.	What is the value of $2x-3y+4z$ at $x = 2$ $y = 0$ & $z = 1$ a) 4 b) 6 c) 8 d) 10
81.	You go north, turn right, then right again and then go to the left. In which direction are you now? a) North b) south c) East d) West
82.	Count the number of cubes in the given figure? a) 12 b) 18 c) 15 d) 16 
83.	In the following questions the letters of words have been jumbled up Identify the word in the options for the given clues LONG JOURNEY a) LIME b) YGEAVO c) AKBCL d) SOEUH
84.	If 1st October falls on Sunday. What day of the week will fall on 1st November? a) Monday b) Tuesday c) Wednesday d) Thursday

85.	Which of the following options will complete the given figure matrix?  a)  b)  c)  d) 
86.	If 'A' is coded as '1', 'B' is coded as '2', and so on, what is the sum of the codes of the letters in the word "CAT"? a) 24 b) 27 c) 28. d) 30
87.	How many 4's are there in the following number series which are preceded by 5 but not followed by 7? 2 3 4 2 3 4 2 5 4 7 3 2 4 3 1 9 2 5 4 7 5 4 7 2 3 4 5 2 9 5 4 6 a) One b) Two c) Three d) Four
88.	Which of the following options satisfies the same conditions of placements of dots as in the given figure?  a)  b)  c)  d) 
89.	Accident: Carefulness: Disease: ? a) Treatment b) Sanitation c) Doctor d) Medicine
90.	Ramu is Raju's sister's father's wife, father in law's father's only grandson's son. Then what is Ramu's relation to Raju? a) Father b) Brother c) Son d) Mother
91.	Select the correct mirror image of the given figure from the given options if the mirror is placed vertically to the right?  a) A b) B c) C d) D 
92.	Find the odd one out? a) ACG b) HJN c) MOQ d) TVZ
93.	A clock is set to show the correct time at 10 am. The clock uniformly loses 12 min in a day. What will be the actual time when the clock shows 5 pm next day? a) 4:25 pm b) 4:45 PM c) 5:15 pm d) 4:50 pm

Direction(94-96) Study the given Venn diagram and answer the following question

94. How many people like reading and dancing but not singing?
 a) 40 b) 20 c) 32 d) 26
95. How many people like singing, reading and dancing ?
 a) 10 b) 20 c) 26 d) 36
96. How many people only like dancing?
 a) 20 b) 32 c) 36 d) 40
97. 43 is related to 14 in some way . In the same way 54 is related to which number?
 a) 24 b) 18 c) 16 d) 23
98. If RED is called BLACK BLACK is called GREEN, GREEN is called YELLOW, YELLOW is called PINK and PINK is called WHITE ,Then what is the colour of cabbage?
 a) Green b) Black c) Yellow d) Red
99. Raman is 7 ranks ahead of Manoj in a class of 39. If Manoj's rank is seventeenth from the last, what is Raman's rank from the start?
 a) 14th b) 15th c) 16th d) 17th
100. Find the missing number which will complete the given series?
 62, 65, 70, 77, 86 ?
 a) 95 b) 99 c) 97 d) 98
