

MALAPPURAM SAHODAYA APTITUDE TEST 2024-25 DISTRICT LEVEL

Class: 09

Date: 04/01/2025

Marks: 100

Name of the Student:

General Instructions:

1. Read the questions carefully.
2. Attempt all the questions.
3. No negative marking.
4. Answers to be marked in the OMR sheet. Darken the bubble completely. Partially darkened bubbles will not be considered.
5. Question numbers 1 to 100 carries 1 marks each.

Read the following passage and answer the questions (1 to 8):

The choices we make on a daily basis—wearing a seatbelt, lifting heavy objects correctly or purposely staying out of any dangerous situation—can either ensure our safety or bring about potentially harmful circumstances.

You and I need to make a decision that we are going to get our lives in order. Exercising self-control, self-discipline and establishing boundaries and borders in our lives are some of the most important things we can do. A life without discipline is one that's filled with carelessness.

We can think it's kind of exciting to live life on the edge. We like the image of “Yeah! That's me! Living on the edge! Woo-hoo!” It's become a popular way to look at life. But if you see, even highways have lines, which provide margins for our safety while we're driving. If we go over one side, we'll go into the ditch. If we cross over the line in the middle, we could get killed. And we like those lines because they help to keep us safe. Sometimes we don't even realize how lines help to keep us safe.

I'm not proud of this, but for the first 20 years of my life at work, I ignored my limits. I felt horrible, physically, most of the time. I used to tell myself, “I know I have limits and that I've reached them, but I'm going to ignore them and see if or how long I can get by with it.” I ran to doctors, trying to make myself feel better through pills, vitamins, natural stuff and anything I could get my hands on. Some of the doctors would tell me, “It's just stress.” That just made me mad. I thought stress meant you don't like what you do or can't handle life, and I love what I do. But I kept pushing myself, travelling, doing speaking engagements and so on— simply exhausting myself.

Finally, I understood I was living an unsustainable life and needed to make some changes in my outlook and lifestyle. You and I don't have to be like everyone else or keep up with anyone else. Each of us needs to be exactly the way we are, and we don't have to apologize for it. We're not all alike, and we need to find a comfort zone in which we can enjoy our lives instead of making ourselves sick with an overload of stress and pressure.

- | | |
|----|--|
| 1. | Which of the characteristics are apt about the writer in the following context: “I know I have limits and that I've reached them, but I'm going to ignore them and see if or how long I can get by with it.”?
a) indecisive and purposeless b) spontaneous and patient
c) negligent and reckless d) indecisive and spontaneous |
| 2. | The reason why living on the edge has become popular is because of the
a) constant need for something different. b) population being much younger.
c) exhausting effort to make changes. d) strong tendency to stay within our limits |
| 3. | The phrase “potentially harmful circumstances” refers to circumstances that can _____
a) certainly be dangerous. b) be fairly dangerous.
c) be possibly dangerous d) seldom be dangerous. |

4.	Choose the option that best captures the central idea of the passage from the given quotes. a) It's all about quality of life and finding a happy balance between work and friends. b) To go beyond is as wrong as to fall short. c) Life is like riding a bicycle. To keep your balance, you must keep moving. d) Balance is not something you find. It's something you create.
5.	The author explains the importance of discipline and boundaries in our lives using the example of a) road accidents. b) traffic rules. c) lines on the highway. d) safe driving.
6.	The author attempts to _____ the readers through this write-up. a) rebuke b) question c) offer aid to d) offer advice to
7.	What is the message conveyed in the last paragraph of the passage? a) Love what you do. b) Love yourself to love others. c) Be the best version of yourself. d) Be yourself
8.	The author uses colloquial words such as “yeah” and “Woo-hoo!”. Which of the following is NOT a colloquial word? a) hooked b) guy c) stuff d) stress
9.	For Questions 9 to 20 choose the correct option. I can lend you my car _____ you return it on time. a) provided that b) except c) so that d) when
10.	He started saving money _____ improve his financial situation. a) away from b) along with c) with a view to d) in comparison to
11.	The correct synonym of the word 'emulate' a) destroy b) imitate c) conquer d) correct
12.	Choose the meaning of the underlined idiom- Let's go out and paint the town red, Sam. a) To whitewash buildings b) To renovate buildings c) To celebrate noisily in public places d) To create nuisance
13.	A lot has happened _____ we met last. a) though b) that c) since d) as
14.	A basket of apples _____ been sold till now. a) has b) have c) is d) had
15.	Choose the correct spelling for the word that means- - 'Loathe'. a) Greed b) Love c) Hate d) Harm
16.	Choose the part of the sentence that has an error. One of his desires are to become a pilot. a) One of his desires b) are to become c) a pilot d) No error
17.	Identify the kind of adverb of the underlined word in the sentence. I'm extremely grateful to you. a) Manner b) Degree c) Frequency d) Reason

18.	Identify the kind of pronoun of the underlined word in the sentence. It's partly finished. There is something left. a) Indefinite b) Possessive c) Distributive d) Relative
19.	Choose the correct direct speech of - She urged the driver to hurry up.. a) She requested the driver, "Please hurry." b) She said to the driver, "Drive hurry." c) She told the driver, "Hurry up!" d) She asked the driver, "Please hurry."
20.	Change into Passive voice.- Did you miss any lecture? a) Have any lecture missed by you? b) Have you missed any lecture? c) Was any lecture missed by you? d) None of these.
21.	A force acts for 5 s on a stationary body of mass 120 kg after which the force ceases to act. The body moves through a distance of 100 m in the next 5 s. Then, the magnitude of force is a.160 N b.20 N c.80 N d.40 N
22.	A concrete slab weighs 200 N. When it is fully submerged under the sea, its apparent weight is 120 N. Calculate the density of the sea water if the volume of the sea water displaced by the concrete slab is 4000 cm ³ , [g = 9.8 N/kg] a.1.000 Kg/m ³ b.2000 Kg/m ³ c.1020 Kg/m ³ d.1600 Kg/m ³
23.	Two bodies have the ratio of their momentums as 1:2. If the second body has double the mass of the first, the ratio of their kinetic energy is, A.1:4 b.4:1 c.1:2 d.2:1
24.	The ion of an element has three positive charges. Mass number of the atom is 27 and the number of electrons is 14. What is the number of electrons in the ion? a)13 b)10 c)14 d)16
25.	A sample of NH ₃ molecule irrespective of source contains 82.35% nitrogen and 17.65% hydrogen by mass. This data supports a) law of conservation of mass b) law of multiple proportions c) law of definite proportions d) avogadro's law
26.	What is the force that attracts two objects with mass towards each other? a) Electromagnetic force b) Gravitational force c) Frictional force d) Normal force
27.	What is the primary function of the mitochondria in a cell? a) Protein synthesis b) Cell division c) Energy production d) Waste management
28.	What is the term for the process by which cells become specialized to perform specific functions? a) Mitosis b) Meiosis c) Differentiation d) Osmosis
29.	A 20 kg block is pulled up a frictionless inclined plane with an angle of 30° to the horizontal. If the force applied is 100 N, what is the acceleration of the block up the plane? a) 2.5 m/s ² b) 5.0 m/s ² c) 7.5 m/s ² d) 10.0 m/s ²
30.	What type of friction occurs when an object is moving and the force of friction opposes the motion? a) Static friction b) Kinetic friction c) Rolling friction d) Fluid friction
31.	An object of mass 5kg is moving with an initial velocity of 10 m/s. A constant force of 20 N is applied to the object for 4 seconds. What is the final velocity of the object? a) 10 m/s b) 20 m/s c) 30 m/s d) 40 m/s

32.	Which of the following is a homogeneous mixture? a) Saltwater b) Sand and water c) Oil and water d) Air
33.	Which of Newton's laws states that an object at rest will remain at rest unless acted upon by an external force? a) First law b) Second law c) Third law d) None of the above
34.	Using fertilizers in farming is an example of a) High cost production b) No cost production c) None of the options d) Low cost production
35.	The management and production of fish is called a) Apiculture b) Pisciculture c) Sericulture d) Aquaculture
36.	Most of the human neurons are a) Multipolar b) Bipolar c) Unipolar d) Pseudo - unipolar
37.	Find out the wrong statement among the following a) White revolution is meant for increase in milk production b) Blue revolution is meant for increase in fish production c) Increasing food production without compromising with environment quality is called sustainable agriculture d) None of these
38.	Which of the following methods can be employed for plastic and rubber waste disposal? a) Pyrolysis b) Incineration c) Sanitary landfill d) Composting waste
39.	What is the term for the phenomenon where the sun's magnetic field causes charged particles to be ejected from the Sun's corona, resulting in a massive burst of energy that can affect Earth's magnetic field and cause spectacular aurora displays? a) Solar flare b) Coronal mass ejection c) Solar prominence d) chromospheric eruption
40.	What is the term for the process by which the body's immune system produces antibodies to fight against specific diseases or infections? a) Vaccination b) Immunization c) Inoculation d) Active immunity
41.	Which Indus Valley Civilization site is known for its dockyard? a) Mohenjo Daro b) Harappa c) Lothal d) Kalibangan
42.	The first world war in 1917 led to the strengthening of the Allies and the defeat of Germany because of the entry of..... a) China b) Japan c) The USA d) Spain
43.	What was the name of the Russian Parliament? a) Diet b) Duma c) Reichstag d) Senate
44.	Which event marked the end of the 'Reign of Terror'? a) Storming of the Bastille c) Execution of Louis XVI b) Execution of Robespierre d) Tennis Court Oath
45.	If you intend to visit Kavaratti, during your summer vacations, which one of the following Union Territories of India you will be going to? a) Puducherry b) Andaman & Nicobar c) Daman & Diu d) Lakshadweep

46.	Which of the following terms is used when an election is held only for one constituency to fill the vacancy caused by death or resignation of a member? a) Constituency Election b) General Election c) By-Election d) Assembly Election
47.	Which Constitutional Amendment is known as the 'Mini constitution'? a) 42nd Amendment c) 44th Amendment b) 73rd Amendment d) 86th Amendment
48.	What is the tenure of a member of the Rajya Sabha? a) 4 years b) 6 years c) 5 years d) Permanent
49.	Which sector contributes the most to India's GDP? a) Agriculture b) Industry c) Services d) Manufacturing
50.	Which invention by Johann Gutenberg played a critical role in spreading Renaissance ideas? a) Telescope b) Microscope c) Steam Engine d) Printing Press
51.	Who is the author of the famous Indian epic, the Mahabharata? a) Valmiki b) Vyasa c) Kalidasa d) Tulsidas
52.	A snail is at the bottom of a 20 - foot well. Each day it climbs up 3 feet, but at night, it slips back 2 feet. How many days will it take for the snail to reach the top of the well? a) 18 days b) 20 days c) 22 days d) 28 days
53.	What is the term for the phenomenon where a material's electrical resistance decreases drastically when its temperature is lowered to near absolute zero (-273°C), allowing it to conduct electricity with zero resistance? a) Superconductivity b) Superfluidity c) Quantum Tunneling d) Electromagnetic Induction
54.	The Crimson Rose is a kind of ____ a) Colour b) animal c) flower d) butterfly
55.	Where is the headquarters of the United Nations Environment Programme (UNEP) located? a) Nairobi b) USA c) China d) India
56.	Where is Hemis National Park situated? a) Jammu and Kashmir b) Haryana c) West Bengal d) Odisha
57.	In which year did Arundathi Roy win the Booker prize? a) 1996 b) 1997 c) 1998 d) 2000
58.	The name of the PSLV mission launched by ISRO on December 5th 2024 is a) PSLV - C58/XPoSat b) PSLV -C59/Proba - 3 c) PSLV - C56/ Aditya d) PSLV - C56/DS - SAR
59.	The Indian who participated and won bronze medal in e-football at 2024 Asian Esports games is _____? a) Paven Kampelli b) Pankaj Advani c) Verstappen d) Lewis
60.	Ashwini Ponnappa and Tanisha Crasto play which sports? a) Football b) Chess c) Badminton d) Polo

61.	61. In the given figure, if $OA = 5$ cm, $AB = 8$ cm and OD is perpendicular to AB, then CD is equal to: a) 2 cm b) 3 cm c) 4 cm d) 5 cm 
62.	A cylinder has a radius of 3cm and a height of 10cm. What is the ratio of its curved surface area to its volume? a) 1:3 b) 1:6 c) 1:9 d) 1:12
63.	Choose whether the given statement is true or false. $ABCD$ is a parallelogram and X is the mid-point of AB. If $\text{ar}(AXCD) = 24 \text{ cm}^2$, then $\text{ar}(ABC) = 24 \text{ cm}^2$. a) True b) False c) Cannot say d) None of these 
64.	The angles of a triangle are in the ratio 5 : 3 : 7. The triangle is a) An acute angled triangle b) An obtuse-angled triangle c) A right triangle d) An isosceles triangle
65.	If $x = (5 - 2\sqrt{6})$, then $(x^2 + \frac{1}{x^2}) =$ a) 58 b) 0 c) 98 d) 12
66.	In the figure the measure of $(a+b+c+d+e+f+g+h+i+j)$ is: a) 9000 b) 7200 c) 5400 d) 3600 
67.	Any solution of the linear equation $2x+0y+9=0$ in two variables is of the form a) $(\frac{-9}{2}, m)$ b) $(n, -\frac{9}{2})$ c) $(0, -\frac{9}{2})$ d) $(-9, 0)$
68.	The sum of the three altitudes of a triangle is ----- the perimeter of the triangle a) greater than b) equal to c) half d) less than
69.	In the given figure, AOB is the diameter of a circle and $CD \parallel AB$. If $\angle BAD = 30^\circ$, then $\angle CAD =$ _ a) 30° b) 60° c) 45° d) 50° 
70.	A cone is 8.4 cm high and the radius of its base is 2.1 cm. It is melted and recast into a sphere. The radius of the sphere is a) 4.2cm b) 2.1cm c) 2.4 cm d) 1.6 cm
71.	Vimala purchased a watch for Rs 500. She sold it at the loss of 20% find the selling price a) Rs. 500 b) Rs. 400 c) Rs 300 d) Rs. 200
72.	$(-2 - \sqrt{3})(-2 + \sqrt{3})$ when simplified a) Positive and irrational b) positive and rational c) negative and irrational d) negative and rational

73.	If $x = \frac{a-b}{a+b}$, $y = \frac{b-c}{b+c}$, $z = \frac{c-a}{c+a}$, then the value of $\frac{(1+x)(1+y)(1+z)}{(1-x)(1-y)(1-z)}$ is _____. a) abc b) $a^2b^2c^2$ c) 1 d) -1
74.	An isosceles right triangle has an area of 8 cm^2 . The length of its hypotenuse is a) $\sqrt{32} \text{ cm}$ b) $\sqrt{16} \text{ cm}$ c) $\sqrt{48} \text{ cm}$ d) $\sqrt{24} \text{ cm}$
75.	Which of the following cannot be the probability of an event? a) 1 b) 0 c) 0.75 d) 1.3
76.	The zeros of the polynomial x^2+2x+3 are a) Real b) not real c) irrational d) rational
77.	If ABCD is a parallelogram, $AE \perp DC$ and $CF \perp AD$. If $AB = 10 \text{ cm}$, $AE = 6 \text{ cm}$ and $CF = 5 \text{ cm}$, then AD is equal to: a) 10cm b) 6cm c) 12cm d) 15cm
78.	If $p(x) = x + 3$, then $p(x) + p(-x)$ is equal to a) 3 b) 2 c) 0 d) 6
79.	A linear equation in two variables is of the form $ax + by + c = 0$, where a) $a=0, c=0$ b) $a \neq 0, b=0$ c) $a=0, b \neq 0$ d) $a \neq 0, b \neq 0$
80.	Assertion: In the given figure, O is the centre of a circle and $\angle ACB = 30^\circ$, Then $\angle AOB = 60^\circ$. Reason: The angle subtended by an arc at the centre is double the angle subtended by it at any other point on the remaining part of the circle.  a) Both assertion (A) and reason (R) are true and reason (R) is the correct explanation of assertion (A). b) Both assertion (A) and reason (R) are true but reason (R) is not the correct explanation of assertion (A). c) Assertion (A) is true but reason (R) is false. d) Assertion (A) is false but reason (R) is true.
81.	In a certain code language "314" means "Who are you". "147" means "you are beautiful" and "517" means "flowers are beautiful". Select the correct option which stands for the word "who"? a) 4 b) 1 c) 7 d) 3
82.	Athul is the son of Uday. Bharat is married to Grishma. Grishma is Uday's daughter. Bharath is the son of Deepak. How is Athul related to Bharath? a) Father-in-law b) Brother-in-law c) rother d) Father
83.	Five boys participated in the scholarship examination. Deepak scored less marks than Mohit. Rajat scored more than Mayuk but less than Deepak. Rithesh scored between Deepak and Rajak. Who scored the highest marks in the examination? a) Deepak b) Mohit c) Mayuk d) Rajath

	Direction(84-86) Study the information given below carefully and answer the questions. Five students facing East,are sitting in a classroom as described below:: i) Naresh is 3 meters to the East of Mukesh ii) Suresh is 5 meters to the West of Naresh iii) Haresh is 4 meters to the North of Munesh iv) Mukesh is 1 metre to the south of Harsh
84.	Who is the south-West of Naresh? a) Mukesh b) Harsh c) Suresh d) Munesh
85.	If another boy walked from Harsh, Met Mukesh followed by Suresh and then by Naresh then at least how many meters had he walked if he could travel horizontally and vertically? a) 6m b) 8m c) 7m d) 9m
86.	If Suresh and Harsh interchange had their places ,then who is west of Mukesh ? a)Naresh b) Suresh c) Harsh d) Muneesh
87.	In the given Venn diagram, how many educated rural rural employed people are there?

94.	Count the number of squares formed in the given figure? a)20 c)19 b) 18 d) more than 20	
95.	Choose the correct water image of the figure from the given options Fig. (X) a)  b)  c)  d) 	
96.	Spot out one figure from the four options in which the given fig(X) is embedded as one of its part. Fig. (X) a)A b) B c) C d) D	    
97.	Which of the following figures will complete the given figure matrix? a)  b)  c)  d) 	
98.	Select the figure from the options as to how the pattern would appear when the transparent sheet is folded along the dotted line. a)  b)  c)  d) 	

99. Make three groups of following figures , members of each group have he same properties.

Options	Group 1	Group 2	Group 3
a)	1,8,9	2,3,5.	4,6,7
b)	1,3,8	2,5,9	4,6,7
c)	1,5,8	2,3,9	4,6,7
d)	1,3,9	2,5,8	4,6,7

100. Three different positions of a cube are shown below. Which colour will be on the face that is opposite the face having red colour?

- a) Blue b) Black c) Yellow d))range
