

MALAPPURAM SAHODAYA APTITUDE TEST 2024-25 DISTRICT LEVEL

Class: +1 Economics

Date: 04/01/2025

Marks: 100

Name of the Student: :.....

General Instructions:

1. Read the questions carefully.
2. Attempt all the questions.
3. No negative marking.
4. Answers to be marked in the OMR sheet. Darken the bubble completely. Partially darkened bubbles will not be considered.
5. Question number 1 to 100 carries 1 mark each.

	(Read the passage carefully and answer the questions 1 to 5 choosing suitable options given below:) The old, worn-out piano had been left untouched in the corner of the room for years. Despite its age, the piano still held a certain charm. Its yellowed keys seemed to whisper stories of the past, of laughter and tears, of joy and sorrow. As Emma's fingers danced across the keys, the piano came alive, filling the room with a warm, rich melody that transported her to a different era
1.	Identify the overall tone of the passage A) Melancholic B) Nostalgic C) Critical D) Humorous
2.	Specify the synonym for the word "worn-out" in the passage? A) Old B) Tattered C) Dilapidated D) Vintage
3.	State the effect of Emma's playing on the piano? A) It makes the piano look old. B) It brings back memories of the past. C) It fills the room with a warm melody. D) It makes Emma feel sad.
4.	What can be inferred about Emma's relationship with music? A) She is a professional musician. B) She has a deep emotional connection with music. C) She is learning to play the piano. D) She has no interest in music.
5.	Select a suitable title for the passage from the given options: A) "The Old Piano" B) "A Melody of Memories" C) "Emma's Piano" D) "The Forgotten Instrument"
6.	Fill in the blanks with the correct idiomatic expression: After a week of travelling, Sarah started to _____ and decided to take a day off to rest. A) Burn the midnight oil B) Feel under the weather C) Take a leap of faith D) Beat around the bush
7.	Which of the following is a gerund phrase? A) The dog barks loudly B) She is typing an email C) We went hiking in the mountains D) The baby is sleeping quietly
8.	Choose the correct adjective to complete the sentence: The tourists got lost in the _____ streets of the old city. A) Narrow B) Winding C) Congested D) Deserted
9.	Which of the following is a homophone for "write"? A) right B) rite C) wright D) all of the above

10.	The new policy has made it imperative for employees to attend the training sessions. What does the word "imperative" mean in this sentence? A) Optional B) Desirable C) Urgent D) Mandatory
11.	From the given alternatives, choose the indirect speech of the given sentence, "If you don't keep quiet, I shall shoot you", he said to her in a calm voice. A) He warned her to shoot if she didn't keep quiet calmly. B) He said calmly that I shall shoot you if you don't be quiet. C) He warned her calmly that he would shoot her if she didn't keep quiet. D) Calmly he warned her that be quiet or else he will have to shoot
12.	Identify the literary device in the given sentence and select the option that employs the same device. "The world is a stage." A) "He is a shining light in the darkness." B) "The city streets were a jungle." C) "The sun smiled down on us." D) "The waves crashed against the shore."
13.	Complete the sentence with the correct idiom: "The new policy has been a huge success, and the recent award is just the _____." A) icing on the cake B) tip of the iceberg C) pot of gold D) feather in one's cap
14.	Fill in the blanks using the correct preposition: "The company's decision to downsize was attributed _____ a combination of factors, including economic downturn and increased competition." A) to B) with C) by D) from
15.	Choose the correct form of verb from the given sentence: If she _____ her project on time, she would have received her promotion. A) finished B) finish C) have finished D) had finished
16.	Choose the word that best completes the sentence. The manager's _____ tone during the meeting made everyone feel apprehensive. A) assertive B) sincere C) sarcastic D) polite
17.	Identify the suitable option to form a meaningful sentence The new employee's _____ attitude towards her work was evident in the high quality of her projects, despite the fact that she had only been with the company for a short time. A) apathetic B) androgynous C) enthusiastic D) ambivalent
18.	Fill up using suitable options: The latest policy is _____ the employees' concerns about job security. A) in response to B) in light of C) despite of D) in spite of
19.	Identify the literary device used in the given line, 'The sun came up upon the left, Out of the sea came he' A) Simili B) Metaphor C) Personification D) Hyperbole
20.	Order the following sentences to form a meaningful paragraph P: The owner checked outside and found that there was nothing to worry about. Q: The dog wagged its tail, happy to have done its job of alerting its family to a possible threat. R: The owner scolded the dog, telling him to be quiet. S: The dog barked loudly, waking up everyone in the house A) SRPQ B) PQRS C) PRSQ D) RPSQ

21.	Identify the synonym for the word "APATHY" from the given options: A) Indifference B) Enthusiasm C) Interest D) Passion
22.	The word "OPTIMISM" is best described as having a positive outlook. Which of the following words is the antonym of 'OPTIMISM'? A) Pessimism B) Enthusiasm C) Confidence D) Ambition
23.	Identify the relative clause in the following sentence: "The researcher, who had spent years studying the phenomenon, presented her findings at the conference." A) The researcher presented her findings at the conference B) who had spent years studying the phenomenon C) her findings at the conference D) The researcher had spent years studying the phenomenon
24.	Select the suitable adjective of the following options: The _____ nature of the evidence made it difficult for the detective to crack the case. A) Circumstantial B) Empirical C) Enigmatic D) Perfidious
25.	Select the suitable adverb from the given options: The professor _____ gives extensions on deadlines, so we were surprised when she agreed to our request. A) Rarely B) Occasionally C) Frequently D) Usually
26.	A is the father of C and D is the son of B.E is the brother of A .If C is the sister of D,How is B related to E? A) Daughter B) Brother-in law C) Husband D) Sister-in law
27.	A man walks 5 km toward south and then turns to the right. After walking 3 km he turns to the left and walks 5 km. Now in which direction is he from the starting place? A) North East B) South west C) East D) West
28.	Five people P, Q, R, S and T are sitting in a straight row, facing north. Q sits to the immediate left of S. Only three people sit between R and T. P sits to the immediate left of T. Who sits in the middle of the row? A) P B) Q C) S D) T
29.	A cube painted on all six faces is cut into 64 equal smaller cubes. How many smaller cubes have exactly two faces painted? A) 24 B) 16 C) 12 D) 8
30.	Statements: Some pens are pencils. All pencils are erasers. Conclusions: I Some erasers are pencils. II Some pencils are not pens. Which conclusion follows? A) Only 1 B) Only 2 C) Both 1 and 2 D) Neither 1 nor 2
31.	A and B together can complete a work in 12 days. B and C can complete it in 15 days, and C and A can complete it in 20 days. In how many days will A, B, and C together complete the work? A) 10 B) 12 C) 8 D) 6
32.	A train 200 meters long is running at a speed of 72 km/h. How long will it take to cross a railway signal? A) 10 seconds B) 12.5 seconds C) 15 seconds D) 20 seconds

33.	In a single row, there are some boys and all of them are facing north. Gaurav rank is 29th from the left ends and Tarun rank is 27th from the right end. If 26 students are sitting in between them. Find the number of students in the class. A) 21 B) 9 C) 10 D) 82
34.	What day of the week was 1st January 1900? A) Monday B) Tuesday C) Wednesday D) Sunday
35.	If today is Sunday ,what will be the day of the week 500 days from now? A) Friday B) Saturday C) Wednesday D) Monday
36.	What is the angle between the hour and minute hands of a clock at 4:40? A) 100° B) 120° C) 140° D) 160°
37.	At what time between 3 and 4 o'clock will the hands of the clock coincide with each other? A) 166/11 past 3 B) 191/11 past 3 C) 147/11 past 3 D) 180/11 past 3
38.	 A) D B) E C) A D) B
39.	A certain code language, 'PENCIL' is written as 'KLNIPC'. How will 'DOCTOR' be written in that code language? A) CRODOT B) CDOTOR C) CROD TO D) CDOTRO
40.	If a clock shows 2:15, then what time will its image in a plane mirror show? A) 9:45 B) 10:45 C) 11:45 D) 12:45
41.	If 'P' means '÷', 'Q' means '+', 'R' means '-', and 'S' means '×', then what is the value of 18 S 12 P 4 Q 5 R 6? A) 15 B) 19 C) 21 D) 23
42.	Ecology is related to Environment in the same way as Histology is related to A) Fossils B) History C) Tissues D) Hormones
43.	Six members of a family, M, N, O, P, and Q are travelling together. M is the son of N, but N is not the mother of M. L and N are a married couple. P is the brother of N. O is the daughter of L. Q is the brother of M. How many male members are there in the family? A) 4 B) 3 C) 2 D) 1
44.	An old clock is set at 5 am. If the old clock loses 16 minutes in 24 hours, what will be the exact time when the clock indicates 10 pm on the 4th day? A) 10 pm B) 1.15 pm C) 11.30 pm D) 11 pm
45.	By increasing the radius of a sphere by 50 per cent, by how much per cent will the area of its surface increase? A) 100% B) 145% C) 125% D) 150%
46.	40 % is the passing mark. A student gets 250 marks yet fails by 38 marks. What are the maximum marks? A) 800 B) 840 C) 720 D) 750

47.	If the English letters A to Z are written in a reverse order, then what is the fourth letter to the right of 12th letter from the left? A) K B) J C) R D) L
48.	If 40% of a number is equal to two-third of another number, then what is the ratio of the first number to the second number? A) 2:5 B) 2:7 C) 5:3 D) 5:7
49.	If in a certain code BAT=23 and CAT=24, then how will you Code BALL? A) 27 B) 28 C) 32 D) 120
50.	How many triangles are there in the given figure? A) 13 B) 32 C) 21 D) 24 
51.	What is the primary goal of a firm in a capitalist economy? A) To maximize employment B) To maximize social welfare C) To maximize profits D) To minimize costs
52.	Which of the following is a characteristic of a perfectly competitive market? A) Single buyer and seller B) Free entry and exit C) Homogeneous products D) All of the above
53.	When coefficient of correlation lies between +0.25 and +0.75, it is called A) Perfect degree of correlation B) High degree of correlation C) Moderate degree of correlation D) Low degree of correlation
54.	What is the law of diminishing marginal utility? A) As consumption increases, marginal utility increases B) As consumption increases, marginal utility decreases C) As consumption decreases, marginal utility increases D) As consumption decreases, marginal utility decreases
55.	Which of the following is a determinant of demand? A) Price of the commodity B) Income of the consumer C) Price of related goods D) All of the above
56.	Assertion: The mean is a better measure of central tendency than the median. Reason: The mean takes into account all the values in the dataset, whereas the median only considers the middle value. A) Both A and R are true and R is the correct explanation of A. B) Both A and R are true but R is not the correct explanation of A. C) A is true but R is false. D) A is false but R is true.
57.	Price relatives = $\frac{\text{Current year price}}{\text{Base year price}} \times 100$ A) Reference year price B) Periodic year price C) Base year price D) Both (a) and ©
58.	What is the concept of opportunity cost? A) The cost of choosing one option over another B) The benefit of choosing one option over another C) The cost of producing one more unit of a good D) The benefit of producing one more unit of a good

59.	What is the term for a correlation coefficient that ranges from -1 to 1? A) Pearson's correlation coefficient B) Spearman's correlation coefficient C) Kendall's correlation coefficient D) All of the above
60.	Which of the following is a type of market structure? A) Perfect competition B) Monopoly C) Monopolistic competition D) All of the above
61.	Which measure of central tendency is affected by extreme values? A) Mean B) Median C) Mode D) All of the above
62.	What is the concept of consumer surplus? A) The difference between the maximum price a consumer is willing to pay and the actual price paid B) The difference between the actual price paid and the minimum price a consumer is willing to accept C) The total revenue earned by a firm D) The total cost incurred by a firm
63.	Which of the following is an example of a revenue concept? A) Total revenue = Price x Quantity sold B) Average revenue = Total revenue / Quantity sold C) Marginal revenue = Change in total revenue / Change in quantity sold D) All of the above
64.	Which of the following is a characteristic of a monopolistically competitive market? A) Many firms producing homogeneous products B) Single firm producing a unique product C) Free entry and exit D) All of the above
65.	What is the concept of producer surplus? A) The difference between the minimum price a producer is willing to accept and the actual price received B) The difference between the actual price received and the maximum price a producer is willing to accept C) The total revenue earned by a firm D) The total cost incurred by a firm
66.	What is the law of supply? A) As price increases, quantity supplied decreases B) As price increases, quantity supplied increases C) As price decreases, quantity supplied increases D) As price decreases, quantity supplied decreases
67.	Which of the following statements is true about regression analysis? A) Regression analysis can be used to establish causation between two variables B) Regression analysis can be used to establish correlation between two variables C) Regression analysis can be used to predict the value of the dependent variable D) All of the above
68.	Which of the following is a type of economic system? A) Capitalism B) Socialism C) Communism D) All of the above

69.	Consumer price index is also known as A) Industrial Production Index B) Cost of Living Index C) Wholesale Price Index D) None of these
70.	Assertion: The law of diminishing marginal utility states that as the consumption of a commodity increases, the marginal utility derived from each additional unit decreases. Reason: This is because the consumer's desire for the commodity is satisfied with each additional unit, leading to a decrease in marginal utility. A) Both A and R are true and R is the correct explanation of A. B) Both A and R are true but R is not the correct explanation of A. C) A is true but R is false. D) A is false but R is true.
71.	Which of the following types of index numbers is used to measure the change in the price level of a basket of goods? A) Value index B) Quantity index C) Price index D) All of the above
72.	What is the concept of scarcity? A) The fundamental economic problem of unlimited wants and limited resources B) The abundance of resources C) The unlimited wants of consumers D) The limited resources of a country
73.	Which of the following types of regression is characterised by a linear relationship between the dependent and independent variables? A) Simple linear regression B) Multiple linear regression C) Non-linear regression D) Logistic regression
74.	Which of the following is a characteristic of a perfectly competitive market? A) Single buyer and seller B) Free entry and exit C) Homogeneous products D) All of the above
75.	Height of a student is A) A continuous variable B) An attribute C) A discrete variable D) None of the above
76.	Which of the following curves represents the locus of various combinations of two goods that provide the same level of satisfaction to the consumer? A) Indifference Curve B) Demand Curve C) Marginal Utility Curve D) Budget Line
77.	Classification of population of India in terms of years is an example of: A) Geographical classification B) Chronological classification C) Quantitative classification D) Qualitative classification
78.	What is the concept of economic efficiency? A) The maximum production of goods and services B) The minimum cost of production C) The maximum profit earned by a firm D) The optimal allocation of resources
79.	What is the purpose of descriptive statistics? A) To analyze data B) To interpret data C) To summarize and describe data D) To predict future trends

80.	Which of the following is a measure of central tendency? A) Mean B) Median C) Mode D) All of the above
81.	Which of the following combinations is considered an example of variable factors of production? A) Factory building and capital machinery B) Labor and raw materials C) Land and natural resources D) Machinery and tools
82.	What is the term for the spread or dispersion of data from the mean value? A) Range B) Variance C) Standard Deviation D) All of the above
83.	The point of inflection on a total product curve represents: A) Maximum Total Product B) Maximum Marginal Product C) The onset of Diminishing Returns D) Minimum Marginal Product
84.	Which of the following types of data is qualitative in nature? A) Nominal data B) Ordinal data C) Interval data D) Ratio data
85.	What is the purpose of inferential statistics? A) To summarize and describe data B) To analyze and interpret data C) To make conclusions or predictions about a population based on a sample D) To visualize data
86.	Assertion: A monopolistically competitive market is characterized by a large number of firms producing differentiated products. Reason: This leads to a situation where firms have some degree of price-setting power, but also face competition from other firms. A) Both A and R are true and R is the correct explanation of A. B) Both A and R are true but R is not the correct explanation of A. C) A is true but R is false. D) A is false but R is true.
87.	What is the term for the measure of the goodness of fit of a regression line? A) Coefficient of determination B) Correlation coefficient C) Regression coefficient D) Standard error
88.	Diminishing returns to a factor occur when: A) Total Product (TP) increases at a constant rate B) Marginal Product (MP) starts to decrease C) Average Product (AP) increases D) Total Product decreases
89.	What is the term for the graphical representation of a frequency distribution? A) Bar chart B) Histogram C) Pie chart D) Scatter plot
90.	Which of the following types of sampling methods is most likely to produce a representative sample? A) Random sampling B) Stratified sampling C) Systematic sampling D) Convenience sampling
91.	What is the difference between average cost and marginal cost? A) Average cost includes fixed cost, marginal cost excludes fixed cost B) Average cost excludes fixed cost, marginal cost includes fixed cost C) Average cost is total cost, marginal cost is additional cost D) Average cost is additional cost, marginal cost is total cost

92.	At which stage of production should a rational producer operate to maximize production efficiency? A) Stage I B) Stage II C) Stage III D) None of these
93.	The method in which upper limit of a class interval is same as the lower limit of the next class interval is called A) Objective method B) Inclusive method C) Exclusive method D) None of these
94.	What is the purpose of a null hypothesis in hypothesis testing? A) To state the expected outcome of a study B) To state the opposite of the expected outcome of a study C) To test the significance of a result D) To visualize data
95.	In a perfectly competitive market, the relationship between AR (Average Revenue) and MR (Marginal Revenue) is: A) $AR > MR$ B) $AR < MR$ C) $AR = MR$ D) AR is independent of MR
96.	Which of the following statistical tests is used to compare the means of two independent samples? A) t-test B) ANOVA C) Regression analysis D) Correlation analysis
97.	What is the term for the probability of rejecting a true null hypothesis? A) Effect size B) Type I error C) Power of the test D) Type II test
98.	Which of the following statements is not an example of Statistics? A) Birth rate in India is 18 per thousand as compared to 8 per thousand in the US. B) Ramesh has a 100 note in his pocket. C) Over the last 10 years, India has won 60 test matches in cricket and lost 50. D) Average pocket allowance of the students of Class XI is ₹500 per month.
99.	If the marginal utility of a good becomes negative, the total utility of the good will: A) Increase B) Remain constant C) Decrease D) Become zero
100.	Which of the following statistical measures is used to describe the strength and direction of a linear relationship between two variables? A) Correlation coefficient B) Regression coefficient C) Coefficient of determination D) All of the above *****
