

MALAPPURAM SAHODAYA APTITUDE TEST EXAMINATION 2024-25

School Level

Class: 8

Date:

Marks: 100

Name of the Student:

General instructions

- 1) All questions are objective type
- 2) Questions 1-40 carry 1 mark each
- 3) Questions 41 - 70 carry 2 marks each

Read the passage carefully and answer the following questions:

The Arctic is a polar region located at the northernmost part of Earth. It consists of the Arctic Ocean and parts of Canada, Russia, Greenland, the United States (Alaska), Iceland, Norway, Sweden, and Finland. The Arctic is known for its harsh climate, with freezing temperatures, strong winds, and long periods of darkness during winter. Despite these challenging conditions, many species of animals, such as polar bears, arctic foxes, and seals, have adapted to live in this environment.

The Arctic is also home to indigenous peoples, such as the Inuit, who have lived in the region for thousands of years. These people have developed unique skills to survive the cold, relying on hunting and fishing for food. The ice sheets in the Arctic play a crucial role in regulating the Earth's climate by reflecting sunlight. However, due to global warming, these ice sheets are melting at an alarming rate, threatening both the local wildlife and the traditional way of life of the indigenous people.

1. Which of the following animals is not mentioned as living in the Arctic?

- a) Polar bears b) Arctic foxes c) Penguins d) Seals

2. What is a major consequence of global warming in the Arctic?

- a) The growth of forests b) The melting of ice sheets
c) The rise of new animal species d) The increase in sunlight

3. How long have indigenous people, such as the Inuit, lived in the Arctic?

- a) For hundreds of years b) For a few decades
c) For thousands of years d) For a few months

4. What do the ice sheets in the Arctic help to do?

- a) Provide food for animals b) Reflect sunlight
c) Increase the temperature d) Attract tourists

5. Select the synonym for "Benevolent"

- a) Cruel. b) Greedy. c) Kind d) Mean

6. Which of the following is a demonstrative adjective?

- a) These. b) Red. c) Some. d) Twenty

7. Choose the correct modal verb to complete the sentence: "You ____ wear a uniform at school."

- a) must. b) can. c) should. d) may

8. Choose the correct form of the adjective to complete the sentence:

This is the _____ movie I have ever seen.

- a) bad. b) worse. c) worst. d) babadly

9. Identify the type of clause in the following sentence: "Although she was tired, she finished her homework."

- a) Noun Clause. b) Adjective Clause. c) Adverb Clause. d) Main Clause

10) The idiom "Spill the beans" means:

- a) To prepare food. b) To reveal a secret. c) To drop something. d) To lie to someone

11. The Civil Disobedience Movement was launched in:

- a) 1920 b) 1930. c) 1942. d) 1947

12. The Ryotwari system was based on:

- a) Direct land revenue collection from individual peasants
b) Land revenue collection through zamindars
c) Land revenue collection through village communities
d) None of the above

13. Which of the following is not a characteristic of tropical rainforests?

- a) Low rainfall. b) Thick forest. c) Dense canopy. d) Warm climate

14. The term "Public Interest Litigation" refers to:

- a) Cases filed by the government
b) Cases filed by individuals on behalf of the public
c) Cases related to public finance
d) Cases involving foreign governments

15. The British East India Company obtained the Diwani rights of Bengal, Bihar, and Orissa from:

- a) The Mughal Emperor. b) The Nawab of Bengal
c) The Maratha Confederacy d) The French East India Company

- a) The introduction of the Doctrine of Lapse. b) The annexation of Awadh
c) The greased cartridges. d) The discriminatory treatment of Indian soldiers.

20. Which of the following is a sustainable agricultural practice?

- a) Monoculture farming. b) Excessive use of pesticides. c) Organic farming. d) Intensive farming

21. The species found only in a particular area are called:

- a) Endangered species. b) Extinct species. c) Exotic species. d) Endemic species

22. The disease caused by Plasmodium is:

- a) Typhoid. b) Malaria. c) Dengue. d) Polio

23. Which of the following is present in plant cells but absent in animal cells?

- a) Cell membrane. b) Mitochondria. c) Cell wall. d) Nucleus

24. Which part of the cell contains the genetic material (DNA)?

- a) Mitochondria. b) Ribosome. c) Nucleus. d) Cytoplasm

25. Which of the following organisms perform anaerobic respiration?

- a) Humans. b) Yeast. c) Fish. d) Birds

26. A mineral from which a metal can be extracted on the commercial scale, economically is called

- a) Ore b) Metalloid. c) Corrosion d) Metal

27. Myopia can be corrected by using a

- a) Opaque lens. b) Convex lens. c) Concave lens. d) Micro lens

28. The unit used to measure astronomical distances

- a) Leap year. b) Light year. c) Century. d) Sound year

29. The power house of cell is called

- a) Cell wall. b) Mitochondria. c) Ribosomes. d) Nucleus

30. The type of chemical reaction that takes place when electricity is passed through water.

- a) Displacement b) Decomposition c) Combination. d) Double displacement

31. The green pigment in plants that helps in photosynthesis is:

- a) Chlorophyll. b) Carotene. c) Xanthophyll. d) Lycopene

32. The layer of the Earth's atmosphere that contains ozone is:

- a) Troposphere. b) Stratosphere. c) Mesosphere d) Thermosphere

33. Who is the author of the famous detective series featuring Sherlock Holmes?

- a) Arthur Conan Doyle. b) Agatha Christie. c) Edgar Allan Poe. d) Raymond Chandler

34. Which of the following is the world's heaviest flying bird?

- a) Ostrich b) Great Bustard c) Kori Bustard d) Wandering Albatross

35. The Indian Constitution was adopted on:

- a) January 26, 1950. b) August 15, 1947. c) November 26, 1949. d) March 25, 1950

36. Which river is considered the lifeline of India?

- a) Ganga. b) Yamuna. c) Brahmaputra. d) Narmada

37. The largest cricket stadium in the world is:

- a) Narendra Modi Stadium b) Melbourne Cricket Ground
c) Eden Gardens. d) Lord's Cricket Ground

38. The first Indian to win a Nobel Prize in Literature was:

- a) Rabindranath Tagore. b) Amartya Sen. c) V.S. Naipaul. d) Arundhati Roy

39. The PSLV rocket is used by ISRO for:

- a) Launching satellites into orbit. b) Sending astronauts to space
c) Exploring the Moon. d) Studying the Sun

40. Who is considered the father of the modern Olympic Games?

- a) Michael Phelps b) Jesse Owens c) Usain Bolt d) Pierre de Coubertin

41. If the side of a square is expressed as $2^4 \times 5^3$ meters, what is the area of the square?

- a) $2^8 \times 5^6$ b) $2^4 \times 5^3$ c) $2^2 \times 5^3$ d) $2^4 \times 5^6$

42. The difference between the cubes of two consecutive natural numbers is 61. What are the numbers?

- a) 4 and 5 b) 3 and 4 c) 5 and 6. d) 6 and 7

43. A car travels 240 km in 6 hours at a constant speed. If the speed is increased by 20%, how long will it take to travel the same distance?

- a) 4 hours b) 5 hours c) 6 hours d) 7 hours

44. The sum of three consecutive integers is 72. What is the smallest integer?

- a) 22 b) 23 c) 24 d) 25

45. A bag contains 5 red, 3 blue, and 2 green balls. If a ball is drawn at random, what is the probability that it is not blue?

- a) $\frac{1}{2}$ b) $\frac{2}{5}$ c) $\frac{7}{10}$ d) $\frac{3}{10}$

46. A smartphone is listed at ₹30,000 and is being sold at a discount of 20%. If an additional GST of 18% is applied on the discounted price, what is the final price the customer has to pay?

- a) 28,320 b) 26,500 c) 25,920 d) 30,600

47. A man borrows ₹10,000 at 10% per annum simple interest for 2 years. What is the total amount he has to repay?

- a) 12,000 b) 11,000 c) 10,500 d) 12,500

48. A shopkeeper marks a shirt at ₹500 and allows a discount of 10%. What is the selling price of the shirt?

- a) 450 b) 400 c) 480 d) 440

49. A shop offers a discount of 20% on a shirt marked at ₹800. If a customer has a coupon for an additional 10% discount on the discounted price, how much does the customer need to pay for the shirt?

- a) 576 b) 640 c) 720 d) 512

50. A mixture contains milk and water in the ratio of 5:3. If there are 40 liters of milk, how much water is present in the mixture?

- a) 25 liters b) 30 liters c) 24 liters d) 20 liters

51. Which letter in this alphabet is the eighth letter to the right of the letter and which is tenth letter to the left of the last but one letter of the alphabet?

- a) X b) W c) I d) H

52. Which figure is a rotation of the object?

- a) A b) B c) C d) D

53. There are 24 students in dance class, and the teacher is planning for an arrangement of students on stage. Sampratha is 9th from the left side of the row and Supreetha is 22nd from the right side of the row. Find the number of dancers standing between the sisters Sampratha and Supreetha?

- a) 4 b) 5 c) 6 d) 7

54. Identify the group that doesn't fit in.

- a) 2, 4, 6 b) 3, 6, 9 c) 5, 10, 15 d) 7, 12, 17

55. Which of the following doesn't belong in the group?

- a) Square b) Circle c) Triangle d) Rectangle

56. In the following question, select the related word from th. $562 : 30 :: 663 : ?$

- a) 44. b) 49 c) 54. d) 58

57. In the following question, select the related word for the given alternatives.

PRAG : QTDK :: STOP : ?

- a) LMNP b) BDFE. c) TVRT d) QSTG

58. In the following question, select the related word/numbers/letters from the given alternatives.

MANTLE : SFTYRJ :: PARROT : ?

- a) VFXWUY b) VXFUWY c) VFXWYU d) VFXUWY

59. $139 : 228 :: 122 : 211 :: 2 : ?$

- a) 91. b) 198. c) 89 d) 189

60. If the transparent paper is folded at the dotted line what would be the result of the folding.

61. Which of the following shapes has exactly two lines of symmetry?

- a) Rectangle. b) Square. c) Equilateral triangle. d) Rhombus

62. If a shape has rotational symmetry of order 3, how many degrees must you rotate it to look the same? a)

- 60° b) 90°. c) 120°. d) 180°

63. Which of the following has both line symmetry and rotational symmetry?

- a) Circle. b) Rectangle. c) Rhombus. d) Parallelogram

64. How many lines of symmetry does a square have?

- a) 1 b) 2 c) 4 d) 8

65. Five friends are standing in a line. Nishu is taller than Riya but shorter than Pooja. Amrita is the shortest. Riya is shorter than Nishu but taller than Nikita. Who is the second tallest?

- a) Amrita. b) Pooja. c) Riya. d) Nishu

66. Directions: Read the following information carefully and answer the questions.

Nine persons **T, Y, U, G, X, R, L, M,** and **V** work at the same institution but in nine different posts, Director, Principal, Professor, Associate Professor, Assistant Professor, Lecturer, Laboratory Assistant, Librarian, and Sweeper. The posts are given in order of their seniority, which means that the Director is the topmost post and the Sweeper is the lowermost post at the institution. All nine of them belong to nine different cities, Guwahati, Kochi, Kolkata, Chandigarh, Roorkee, Chennai, Indore, Surat, and Jaipur. All the information given is not necessarily in the same order.

R, who belongs to Indore, works either as an Assistant Professor or as a Lecturer. **G**, who belongs to Roorkee, works at the topmost position. **L** works in the post which is immediately below **Y**. **T** works as an Associate Professor. Only one person works between **X** and **G**. **V**, who belongs to Chennai, works as an Assistant Professor. **G** works at the post which is immediately above **M**. **U** belongs to Surat. **M** belongs to either Kolkata or Guwahati. **L**, who works as the Librarian, belongs to Chandigarh. **T** and **Y**, who are two school friends, belong to Kochi and Jaipur respectively. **X** doesn't belong to Kolkata.

What is the product of the number of persons working above **R** and the number of persons working below **M**?

- a) 45 b) 48 c) 60 d) 35

67. Eclipse : Sun :: Blackout : ?

- a) Moon. b) Electricity. c) Night. d) Power

68. Symphony : Orchestra :: Novel : ?

- a) Author b) Reader c) Publisher d) Character

69. Metaphor : Comparison :: Paradox : ?

- a) Contradiction b) Simile c) Hyperbole d) Alliteration

70. Directions: Read the given information carefully and answer the following questions.

Eight persons **A, B, C, D, E, F, G,** and **H** are fans of football. Each of them is supporting either of the three football clubs i.e. Real Madrid, Copenhagen football team, and Barcelona football team. At least two and less than four people support one football club.

A supports Copenhagen. **H** is not supporting Real Madrid and Barcelona. **F** is supporting a team with only one supporter excluding him. **E** is supporting a club with an even number of people without including **E**. **E** does not support the same team as **H**. **C** does not support Madrid. **D** does not support the same club as **E**, and **F**. **G** and **E** support the same team. **B** does not support the same club as **G**.

Which of the following combinations is correct?

- a) A-Real Madrid. b) F-Madrid. c) E-Copenhagen. b) B-Barcelona
