

MALAPPURAM SAHODAYA APTITUDE TEST EXAMINATION 2024-25

School Level

Class: 9

Date:

Marks: 100

Name of the Student:

General instructions

1. Read all the questions carefully.
2. Attempt all the questions.
3. QP 01 TO 40 (1MARK), QP41 TO 70 (2MARKS)

READ THE PASSAGE GIVEN BELOW AND ANSWER THE FOLLOWING QUESTIONS

In my opinion, the present symptoms of decadence are explained by the fact that the development of industry and machinery has made the struggle for existence very much more severe, greatly to the detriment of the free development of the individual. But the development of machinery means that less and less work is needed from the individual for the satisfaction of the community's needs. A planned division of labour is becoming more and more of a crying necessity and this division will lead to the material security of the individual. This security and the spare time and energy which the individual will have at his command can be made to further his development. In this way the community may regain its health, and we will hope that future historians will explain the morbid symptoms of present-day society as the childhood ailments of an aspiring humanity, due entirely to the excessive speed at which civilisation was advancing. (An extract from 'The world As I See It' by Albert Einstein)

1. What does Einstein attribute the present symptoms of decadence to?
 - a) Overpopulation
 - b) Excessive wealth
 - c) The development of industry and machinery
 - d) A lack of education
2. According to Einstein, what is becoming a 'crying necessity'?
 - a) Political reform
 - b) Globalization
 - c) A planned division of labour
 - d) Technological advancement
3. What does Einstein suggest will result from a planned division of labour?
 - a) Increased competition
 - b) Economic inequality
 - c) Material security and more free time for the individual
 - d) A decline in industrial output
4. How does Einstein hope future historians will explain the current issues in society?
 - a) As a consequence of poor governance
 - b) As a result of social inequality
 - c) As the childhood ailments of an aspiring humanity
 - d) As the failures of technological progress
5. What is the synonym of "Fragile"?
 - a) Sturdy
 - b) Strong
 - c) Weak
 - d) Delicate
6. Which sentence uses the correct superlative form?
 - a) She is the smarter in the class.
 - b) He is the more smart of all.
 - c) This is the most interesting book I've read.
 - d) She is the smarter than everyone else.

7. What does the idiom "Hit the nail on the head" mean?
 a) To accidentally make a mistake
 b) To speak or do something exactly right
 c) To criticize someone unfairly
 d) To act impulsively
8. _____ you be a little polite?
 a) Should
 b) Will have
 c) Need
 d) Could
9. I.....want to earn money, respect.
 (a) am, because of
 (b) really, to get
 (c) not only, but also
 (d) need, for
10. Choose the correct participle form to complete the sentence: "The _____ cat jumped off the wall."
 a) sleeping
 b) sleep
 c) sleeps
 d) slept
11. What happens to the gravitational force between two objects if the distance between the objects is doubled?
 a) The force doubles
 b) The force halves
 c) The force quadruples
 d) The force becomes 1/4th
12. An object of mass 2 kg is sliding with a constant velocity of 4 m/s on a frictionless horizontal table. The force required to keep the object moving with the same velocity is
 (a) 32N
 (b) 0N
 (c) 2N
 (d) 8N
13. A ball is thrown upwards and then comes down. What is the direction of its acceleration?
 a) Upwards
 b) Downwards
 c) Horizontal
 d) None of the above
14. When water at 0°C freezes to form ice at the same temperature of 0°C, then it:
 (a) Absorbs some heat
 (b) Releases some heat
 (c) Neither absorbs nor releases heat
 (d) Absorbs 3.34×10^5 J/kg of heat
15. The numerical ratio of displacement to distance for a moving object is :
 (a) Always less than 1.
 (b) Equal to 1 or less than 1
 (c) Always more than one.
 (d) Equal to or more than 1.
16. Two substances, A and B, react to form a third substance, A₂B, according to the following reaction:
 $2A + B \rightarrow A_2B$.
 Which of the following statements concerning this reaction are incorrect?
 I. The product A₂B shows the properties of substances A and B.
 II. The product will always have a fixed composition.
 III. The product so formed cannot be classified as a compound.
 IV. The product so formed is an element.
 a) I and III
 b) II and IV
 c) I, III and IV
 d) I and II
17. A scientist observes that plant cells have a rigid cell wall, while animal cells do not. What might be the evolutionary advantage of having a cell wall for plants?
 a) Provides structural support and protection
 b) Helps in photosynthesis
 c) Stores food and water
 d) Aids in cell division
18. If a farmer notices that their crops are being damaged by pests, what are some sustainable methods they could use to control the pests?
 a) Using chemical pesticides
 b) Introducing natural predators
 c) Planting companion crops
 d) Both b and c
19. Endoplasmic reticulum one of the cell organelles, exists as a membranous network that extends from outer membrane of nucleus to the plasma membrane making a connection between them.
 Which of the following statements is not related to the endoplasmic reticulum?
 (a) It behaves as transport channel for proteins between nucleus and cytoplasm.
 (b) It transports materials between various regions in cytoplasm.
 (c) It can be the site of energy generation.
 (d) It can be the site of some biochemical activities of the cell.

20. Choose the correct labeling for the parts A, B, C, D and E.

- (a) A – Nucleus; B – Cell body; C – Dendrite; D – Axon; E – Nerve ending.
- (b) A – Nucleus; B – Dendrite; C – Cell body; D – Nerve ending; E – Axon.
- (c) A – Nucleus; B – Axon; C – Cell body; D – Dendrite; E – Nerve ending.
- (d) A – Nucleus; B – Dendrite; C – Cell body; D – Axon; E – Nerve ending

21. Indus valley civilization belongs to which period

- a. Pre historical period
- b. Historical period
- c. Proto historical period
- d. Post historical period

22. Identify the wrong pair

- a. Indira Gandhi - National Emergency
- b. Rajiv Gandhi - Development in science & technology
- c. P V Narasimha Rao - Economic improvement
- d. Chandra Shekhar - Mandal commission

23. The tomb is located in Mandu, Madhya Pradesh. It is considered to be India's first marble tomb. Identify the name of the tomb.

- a. Jahangir's tomb
- b. Hoshang Shah's tomb
- c. Humayun's tomb
- d. Akbar's tomb

24. Which is called by Dr. Ambedkar as "Novel features of the Indian constitution"?

- a. Preamble
- b. Articles
- c. Directive principles
- d. Amendments

25. The protection of Human Rights Act in India was enacted in the year

- a. 1994
- b. 1995
- c. 1993
- d. 1996

26. Who was the first King to issue the largest hoard of gold coins in India?

- a. Kushanas
- b. Brahmadeyas
- c. Shalaboghas
- d. Pallavas

27. Name the Delhi Sultan who called himself the 'Shadow of God'.

- a. Balban
- b. Mohammed Bin Tuglak
- c. Firoz Shah Tuglak
- d. Alauddin Khalji

28. There are two statements marked as Assertion (A) and Reason (R). Read both the statements and choose the correct option as your answer:

Assertion: The assemblage of literary figures was known as the Sangam.

Reason: Tamil was the language of Sangam literature

- a. Both A and R are true and R is the correct explanation of A
- b. Both A and R are true but R is not a correct explanation of A
- c. A is true but R is false
- d. Both A and R are not true

29. Which political ideology became dominant after the Russian Revolution?

- a. Capitalism
- b. Socialism
- c. Fascism
- d. Feudalism

30. He was the 7th Secretary general of the United Nations from 1997 to 2006 and a Nobel Peace prize laureate. Who is the person?

- a. Nelson Mandela
- b. Kofi Annan
- c. George Washington
- d. Barrack Obama

31. The process of converting atmospheric nitrogen into a form usable by plants is known as:

- a. Nitrification
- b. Denitrification
- c. Nitrogen fixation
- d. Ammonification

32. Which of the following countries has recently withdrawn from the International Criminal Court (ICC)?

- a. Russia
- b. China
- c. India
- d. Philippines

33. Which Indian state shares the longest international border with Pakistan?

- a) Rajasthan
- b) Punjab
- c) Gujarat
- d) Jammu and Kashmir

34. The invention of the printing press in Europe in the 15th century led to:

- a. A decline in literacy rates
- b. A decrease in the power of the Church
- c. A rise in censorship
- d. A decrease in the spread of information

35 Identify the figure of speech used in the following sentence: "The waves danced merrily in the moonlight."

- a. Simile
- b. Metaphor
- c. Personification
- d. Hyperbole

36. Who has won the most Grand Slam singles titles in women's tennis?

- a. Serena Williams
- b. Steffi Graf
- c. Margaret Court
- d. Martina Navratilova

37. The enzyme responsible for the breakdown of starch into maltose is:

- a. Amylase
- b. Lipase
- c. Protease
- d. Sucrase

38. The Doha Round of WTO negotiations began in:

- a. 2001
- b. 2005
- c. 2010
- d. 2015

39. In Emily Dickinson's "Because I Could Not Stop for Death," what does the carriage ride symbolize?

- a. The inevitability of death
- b. A journey to the afterlife
- c. The passage of time
- d. The beauty of nature

40. Which Union Minister holds the portfolio of Finance?

- a. Rajnath Singh
- b. Nirmala Sitharaman
- c. Amit Shah
- d. Nitin Gadkari

41. If a cube is painted red on all sides and then cut into 27 smaller cubes, how many cubes will have red paint on three sides?

- (a) 8
- (b) 6
- (c) 4
- (d) 2

42. If a square piece of paper is folded in half diagonally twice and then punched once, how many holes will appear when the paper is unfolded?

- (a) 4
- (b) 6
- (c) 8
- (d) 16

43. Select the correct mirror image of the given figure when the mirror is placed at MIN as shown below.

CLkv38z
M MIN N

- a) C7K^85
- b) C7K^385
- c) C7K^385
- d) 58E^KJ0

44. Complete the series: A, C, E, G, I, K, M, O, Q, ?

(a) R (b) S (c) T (d) U

45. A, B, C, D, and E are standing in a line. B is taller than C, but shorter than A. D is taller than E, but shorter than B. Who is the tallest?

(a) A (b) B (c) C (d) D

46. Five boxes, P, Q, R, S, and T, are arranged in a row. Q is heavier than R, but lighter than P. S is heavier than T, but lighter than Q. Which box is the heaviest?

(a) P (b) Q (c) R (d) S

47. A sheet has been folded in the manner as shown in X, Y, and Z respectively, and punched. You have to choose from the alternatives how it will look when unfolded.

a)

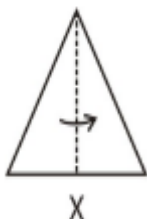

b)

c)

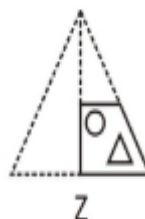

d)

X

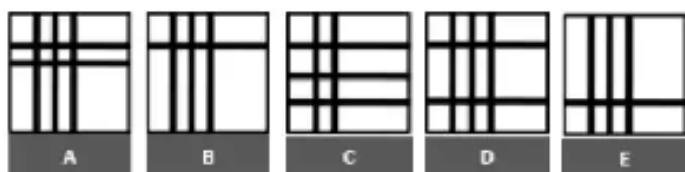

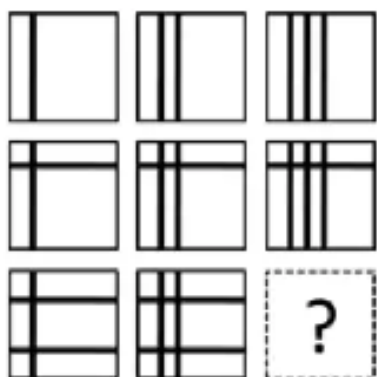

Y

Z

48. Which of the following boxes below replace the question mark (?) to complete the pattern?

49. Eight persons A, B, C, D, E, F, G, and H are fans of football. Each of them is supporting either of the three football clubs i.e. Real Madrid, Copenhagen football team, and Barcelona football team. At least two and less than four people support one football club.

A supports Copenhagen. H is not supporting Real Madrid and Barcelona. F is supporting a team with only one supporter excluding him. E is supporting a club with an even number of people without including E. E does not support the same team as H. C does not support Madrid. D does not support the same club as E, and F. G and E support the same team. B does not support the same club as G.

Which of the following combinations is correct?

- a) A-Real Madrid b) F-Madrid c) E-Copenhagen d) B-Barcelona

50. There are eight girls A to H who need to go for dance sessions in two batches of four girls each. Following are the criteria:

- (1) B and H have to go together
(2) D and F do not go together
(3) A and C never go together

If B and C go in the first batch, then who of the following can be in the second batch?

- a) A, D, F and G b) A, D, H and G c) A, D, E and G d) A, C, E and G

51. Five friends are standing in a line. Nishu is taller than Riya but shorter than Pooja. Amrita is the shortest. Riya is shorter than Nishu but taller than Nikita. Who is the second tallest?

- a) Amrita b) Pooja c) Riya d) Nishu

52. In a row Sindhu is 15th from front end and Madhu is 10th from back end. If they interchange their positions there are 5 persons between Sindhu and Madhu. Total number of persons in the row?

- a) 28 b) 29 c) 30 d) 31

53. Calligraphy: Writing

- (a) Music: Song (c) Drama: Prose
(b) Lyric: Poem (d) Chapter: Stanza

54. In a row, all the persons are facing north. Sarah is 24th from the left end, and on the right side of Sarah, there are only 17 persons. Find out the total number of persons in this queue?

- a) 40 b) 41 c) 39 d) None of these

55. In a single row, there are some boys and all of them are facing north. Gaurav rank is 29th from the left ends and Tarun rank is 27th from the right end. If 26 students are sitting in between them. Find the number of students in the class.

- a) 21 b) 9 c) 10 d) 82

56. Order of rotational symmetry for the figure

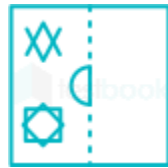

- a) 4 b) 3 c) 5 d) None of the above

57. If the transparent paper is folded at the dotted line what would be the result of the folding.

b)

c)

d)

58. Images of consonants of the capital English alphabets are observed in a mirror. What is the number of images of these which look like their original shapes?

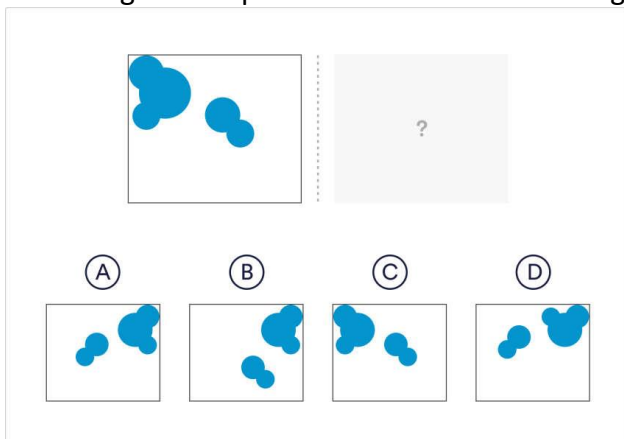

a)11

b)9

c)7

d)5

59. Which of the given shapes is the correct mirror image

60. When seen through a mirror, the clock shows 9:30 as the time. The actual time is

a)2 : 30

b)3 : 30

c)5 : 30

d)8 : 30

61. The rational number between $\frac{2}{3}$ and $\frac{3}{4}$ is:

a. $\frac{17}{24}$

b. $\frac{19}{24}$

c. $\frac{11}{24}$

d. $\frac{13}{24}$

62. If $x + y = 7$ and $xy = 10$, then the value of $x^2 + y^2$ is:

a. 29

b. 39

c. 49

d. 59

63. If (3,4) are the solution of the equation $3y = kx + 7$, then the value of k is.....

a. $\frac{2}{5}$

b. $\frac{5}{3}$

c. $\frac{3}{5}$

d. $\frac{2}{7}$

64. The simple interest on Rs. 5000 at 10% per annum for 2 years is:

a. Rs. 1000

b. Rs. 2000

c. Rs. 3000

d. Rs. 4000

65. The class mark of the class 120 - 160 is

a. 130

b. 135

c. 140

d. 145

66. The measure of the angle between two parallel lines is:

a. 0°

b. 30°

c. 45°

d. 60°

67. A ladder 10 m long leans against a wall. The bottom of the ladder is 6 m away from the wall. How high up the wall does the ladder reach.

a. 8 m

b. 9 m

c. 12 m

d. 16 m

68. If $AB = 12$ cm, $BC = 16$ cm and AB is perpendicular to BC , then the radius of the circle passing through the points A,B,C is

a. 6 cm

b. 8 cm

c. 10 cm

d. 16 cm

69.. The area of a circle with circumference 44 cm is.....

a. 154 cm^2

b. 308 cm^2

c. 462 cm^2

d. 616 cm^2

70. The mean age of 6 people is 27. If a child of age 6 is added to the group, what will be the new mean age.

a. 23

b. 24

c. 25

d. 26
